Letter to Shareholders

Dear shareholders and honorable guests,

Welcome shareholders and guests to participate in the 2023 Annual General Shareholders' Meeting. On behalf of the Company's directors and all the colleagues, I would like to thank you for your kindness and support for the Company over the years.

Recalling 2022, the Global economy faced many uncertainties. The Ukraine-Russia War was continuing stalemated which pushed up the international energy and food price, led to the rise of global inflation pressure, and in turn affected the consumer purchasing power and slowed down the market demand. Therefore, the main international forecast institutions have made several downward revisions on performance of global economy and trading growth since 2022. Additionally, Europe faced an energy shortage crisis and rising inflation, and the economic outlook was not good. China's insist on Zero-Covid policy has resulted in obstructed of production and consumption. All deepened the hidden concern of the international economic slack.

In 2022, the Company has shown progress on various business indicators compared with the previous years, including production and marketing cost control, breeding management, livestock breeding rates, breeder egg production rates, brand management, physical marketing channels, strengthened R&D and production of food processing, e-commerce channel development, etc. Under the impact of the Covid-19 epidemic, thanks to the efforts of all colleagues, the Company still had an operating performance of EPS NT\$ 5.28.

Envisioning 2023, investment grows for three consecutive years and consumption of domestic demand is also expected to recover steadily due to the epidemic is under control. However, there are still many changes in the international economy. Not only are there still inconsistent in the pace of economy recovery among various countries, but also the new progress of U.S.-China trade war and the influence of the Ukraine-Russia War, as well as the issues concerned by the manufacturing industry including surging in cost of raw materials and freight, shortage of materials, unstable supply chain, fluctuations of exchange rate, depreciation of New Taiwan Dollars, etc. All aforesaid factors are required to pay attention continuously.

It is expected that a more stable development in 2023. However, it is necessary to observe uncontrollable external factors such as the period length of panic consumption resulted from the COVID-19 pandemic, the influence of the Ukraine-Russia War, fluctuations in bulk grain price, oil prices, exchange rates, poultry and livestock prices, etc. The following business strategies will continue to be carried out in the future:

1. CP Group upholds the Three Benefits to Sustainability "for the Country, the People and the Company" and keeps on continuous innovation to take "Become the Kitchen of the World" as its mission. The R&D team has established the core technology and database of meat processing for years and continuously communicates with the R&D center of Thailand Head Office and collects the development trends and information of food all over the world for continuous improvement.
2. Standing with customers and providing them with satisfied products in a fast and high-quality way to create a win-win situation is CP Group's insistent belief.

Understanding the customers' needs is the motivation to spur us to move forward continuously. Customers' satisfaction is the greatest power to support us. We will continue to uphold this belief to develop safe and delicious food for customers and consumers.

3. In addition to the meat processing product market we have already deeply cultivated, we have also completed development and sales of dry meat products such as meat floss and jerky, egg products such as steamed egg custard, boiled egg, soft boiled egg, omelette, tamagoyaki, and prepared food package to provide consumers more versatile dietary needs.
4. The Company projected to invest NT\$1.3 billion to establish an AI-automatic drug-free feed mill in Yunlin Technology-based Industrial Park in Douliou City, Yunlin County and already started construction in Feb. 2018. We introduce the world's most advanced AI-automatic stereoscopic storage facility that all production processes from raw material inbounded, crushing and mixing, preparation to packaging will use AI-automatic production while the acceptance and inspection of raw material and shipment processes of finished products will adopt the AI-automatic system. The manpower will be saved 50% in comparison with existing feed mills. The feed mill is completed and put into mass production in the first quarter of 2023. In the future, it will become a new driving force for our operating performance to increase our market share to more than 20%.

The Company has been well aware of the frequent incidents of food safety in recent years. The corporate philosophy of CP Group Chairman, Dhanin Chearavanont, is "for the Country, the People, and the Company." All colleagues are required to take into account the economy, corporate social responsibility (CSR) and environmental protection when promoting policies, as well as the philosophy of fully protecting the consumers' food safety and health.

Regarding the 2022 operation result and the 2023 business objectives, we would like to invite our CEO, Mr. Thong Chotirat, to present it to all the shareholders and honorable guests.

Finally, wish all shareholders and guests good health, peace and happiness.

Chairman

Wu Yeh Cheng

Dear Shareholders and honorable guests,

Total consolidated operating revenue of the Company for 2022 was NT\$ 28,959,220 thousand, an increase of NT\$ 4,117,875 thousand and 16.6% growth compared with 2021. The structure of operating revenue is illustrated as follows:

1. Feed Business

The operating revenue was NT\$10,759,370 thousand, approximately 37.1% of the total operating revenue, with 18.0% growth compared with NT\$9,117,321 thousand in 2021.

2. Agriculture and Livestock Business

The operating revenue was NT\$11,570,762 thousand, approximately 40.0% of the total operating revenue, with 16.2% growth compared with NT\$9,953,735 thousand in 2021.

3. Consumable Food Products

The operating revenue was NT\$6,629,088 thousand, approximately 22.9% of the total operating revenue, with 14.9% growth compared with NT\$5,770,289 thousand in 2021.

In conclusion, total operating revenue deducted the operating costs NT\$25,082,443 thousand to obtain the net operating margin NT\$3,876,777 thousand. The operating profit was NT\$2,003,679 thousand, the profit before income tax was NT\$1,928,243 thousand, and the earnings per share was NT\$5.28.

The results of 2022 operating performance, business plan, budget implementation, and financial analysis and 2023 business plan overview are illustrated in the Annual Report, please refer to page 5~6.

Envisioning the coming year, I and all colleagues will fulfill the strategy and the budget target for the year of 2023 assigned by the Board of Directors with the best efforts. I sincerely invite every shareholder to continue giving us your kind support and concern, and offer your comments without hesitation.

Finally, I wish all the shareholders and honorable guests have good health, success, and happiness.

Chief Executive Officer

Thong Chotirat

I. 2022 Business Report

1. Operating Performance

Please refer to the previous page.

2. Budget Implementation

In accordance with the Regulations Governing the Publication of Financial Forecast of Public Companies, the Company does not have to prepare 2022 financial forecasts to the public. However, the overall business performance is generally in line with the company's internal operating plan.

3. Finance Income and Costs and Profitability Analysis

(1) Finance Income and Costs

A. Year 2022 Interest income was NT\$711 thousand which is from bank deposits.

B. Year 2022 Interest expense was NT\$147,433 thousand which is from bank borrowings.

(2) Profitability Analysis

Item	Year 2022
Return on total assets	6.73%
Return on owners' equity	17.15%
Ratio of profit before income tax to paid-in capital	65.41%
Profit margin	5.35%
Earnings Per Share	NT\$ 5.28

4. Research and Development

- (1) Develop a variety of Chinese-style, exotic, and egg cuisines, such as Pepper Salt Taiwanese Fried Chicken, Crispy German Pork Knuckle, Pork Knuckle with Basil, Massaman Curry Chicken, Korean spice pork with Rice, Japanese-style Fried Egg, Deep-fried eggs with Thai sweet chill sauce, Mushrooms and Vegetables Omelette, etc., for consumers to enjoy delicious meal anytime anywhere in a more convenient and simple way.
- (2) Targeting the needs and trends for high-protein diets, further develop more flavored chicken breast salad products, such as European Curry, Provence-flavored, and Truffled Chicken Breast, and expand the sales market shares of each channel.

II. 2023 Business Plan and Future Development Strategy

1. Operating Principles

For a long time, we have been dedicated to the agriculture, livestock, and food core business. We aggressively established a business model to integrate upper, middle, and lower stream of the industry, including feed manufacturing, livestock breeding, electric slaughtering, fresh frozen meat, meat processing food, egg products, etc. In addition, implementing our marketing strategies of brands enhancement, intensive physical e-commerce channels, procurement and R&D strategies, and also the most rigorous quality control operation, we insist on a fully control of quality and completed traceability from raw material supply chain management, processing, warehousing to products delivering in order to ensure the food safety. Our consistent business philosophy is to provide consumers with high-quality meat which is safe, hygienic, convenient, healthy, and highly qualified with reasonable price.

2. Sales forecast and its reference

In accordance with past performance and changes of market demand, 2023 projected sales volume illustrated as follows:

Item	Unit	Projected sales volume
Feed and extruded ingredients	Tons	650,000
Livestock Fresh Meat	Tons	140,000
Consumable Food	Tons	57,000

3. Important Production and Marketing Policy

After joined the World Trade Organization (WTO), Taiwan lifted all bans on meat imports in 2005. Under the impact of globalization, the domestic and foreign business environment is bound to face greater challenges while the price competition is more brutal. In order to ease the pressure from price competition, we will focus on our business strategies of brand enhancement, channels operating, use of the Group's global procurement network, and innovative R&D technologies to provide consumers with differentiated, unique and competitive products that are safe, healthy, hygienic, convenient and affordable.

III. The External Competitive Environment, Regulatory Environment, and Macroeconomic Conditions

1. After Taiwan joined the WTO, opening meat import in all-round way took its toll in 2005. Commodity trading crossed the barriers of the international regions, turning the world into single markets and inevitably resulting in more intense competition. The Group has been actively engaged in integration and utilization of intensive brand marketing, channel deep-plowing, strengthening marketing, global procurement network platform and innovative R&D resource, which have shown significant benefits in terms of lowering raw materials costs, enhancing product quality and added value, and after-sales services.
2. In recent years, food safety incidents such as plasticizers, lean meat powder, poisonous starch, poisonous soy sauce, mixed oil in edible oil, and feed oil falsely claimed to be edible oil have taken place one after another in Taiwan. Food safety becomes a serious issue across the world. In order to ensure our products meet the food safety requirements, and to provide consumers with safe, healthy, convenient, affordable, and high-quality meats, the Company has been practiced CAS, TGAP, ISO22000, HACCP, and other systems. In addition, we adopt the most rigorous quality control and completed traceability throughout the process from material supply chain management, processing, warehousing to delivering.
3. Recalling 2022, the Global economy faced many uncertainties. The Ukraine-Russia War was continuing stalemated which pushed up the international energy and food price, led to the rise of global inflation pressure, and in turn affected the consumer purchasing power and slowed down the market demand. Therefore, the main international forecast institutions have made several downward revisions on performance of global economy and trading growth since 2022. Additionally, Europe faced an energy shortage crisis and rising inflation, and the economic outlook was not good. China's insist on Zero-Covid policy has resulted in obstructed of production and consumption. All deepened the hidden concern of the international economic slack.

Envisioning 2023, investment grows for three consecutive years and consumption of domestic demand is also expected to recover steadily due to the epidemic is under control. However, there are still many changes in the international economy. Not only are there still inconsistent in the pace of economy recovery among various countries, but also the new progress of U.S.-China trade war and the influence of the Ukraine-Russia War, as well as the issues concerned by the manufacturing industry including surging in cost of raw materials and freight, shortage of materials, unstable supply chain, fluctuations of exchange rate, depreciation of New Taiwan Dollars, etc. All aforesaid factors are required to pay attention continuously.

Company Profile

I. Date of Incorporation : August 22, 1977

II. Company History

- 1977 : The Charoen Pokphand Group, encouraged by the R.O.C. Government's investment project for overseas Chinese, decided to invest the animal husbandry and feed business in Taiwan. In August, the company was incorporated as Charoen Pokphand Feedmill Co., Ltd. and founded headquarter in Taipei. Also, the Company started the construction of the first feedmill in Yongan Industrial Park, Kaohsiung. The excellent pellet feed which C.P. Taiwan introduced made the Taiwan's feed industry into a new era.
- 1984 : The Company set up Taichung Plant in Kwanlien Industrial Park, Taichung, and started operation in October.
- 1987 : The Company became a stock listed company in July.
- 1988 : The Meat Processing Plant was established in Nantou, and the Company was therefore renamed as Charoen Pokphand Enterprise (Taiwan) Co., Ltd.
- 1989 : The investment of Hong Kong Plenty Type Ltd. moves the Company step on international, multilateral and integral objective.
- 1990 : The Meat Further Processing Plant started to produce various meat products, such as sausage, ham, hot-dog, chicken nugget, etc.
- 1992 : The Company indirectly invested in China Lianyungang Chia Tai Agro-industry Development Co., Ltd.
- 1993 : The Company engaged in western franchise restaurant with the investment of Taiwan Sizzler Co., Ltd.
- 1998 : The Company joint-ventured with C.P. Thailand for the biotechnological breeder center, computerized automatic control in feedmill, modern meat & food processing plant, and marketing channels set up in Alabama State of the United States.
In the same year, the Company invested Arbor Acres (Taiwan) Co., Ltd. and Charoen Pokphand (Taiwan) Co., Ltd. in order to establish vertically integrated business model.
- 1999 : In June, Nantou Meat Processing Plant got official verification accredited by SGS, and was further accredited ISO9001 Meat processing Plant by UKAS, the first of its like ever issued in Asia, also the first successful integrated production, QC and R&D among Taiwan's meat processing plants.
- 2000 : Taichung Feedmill and Kaohsiung Feedmill were accredited ISO9001 in January and March respectively, as Taiwan's first feedmill for such honors.
- 2002 : Nantou Meat Processing Plant was accredited Dutch RvA-HACCP in April.
- 2007 : Nantou Meat Processing Plant was accredited ISO22000 in February and TAF-Taiwan Good Agricultural Practice (TGAP) in November.
- 2011 : In response to the trend of consumers' future diet, the Company invested in Asia's most advanced frozen microwave fresh food processing plant in Nantou and constructed a plant-based feedmill in line with ISO22000, HACCP, and meat safety standards of EU, the United States, and Japan to supply livestock with feed that is purer, healthier, and from non-pharmaceutical and non-animal raw material sources.
- 2016 : In order to launch laying hen business, the Company joint-ventured with other companies to establish Rui Mu Foods Co., Ltd. and Rui Fu Foods Co., Ltd.
- 2017 : The Company acquired 53,319 square meters of land in Yunlin Technology-based Industrial Park in Douliou City, Yunlin County. The first phase of the plant construction is to build the world's most advanced AI automated non-pharmaceutical feedmill in line with international environmental protection standards, and to solve the feed cross-contamination and food safety issues.
- 2019 : In order to expand the egg market and distribution business model, the Company's subsidiary, Rui Fu Foods Co. Ltd., joint-ventured with other companies to establish Sheng Da Foods Co., Ltd.
- 2020 : In order to satisfy the demand of chicken slaughtering capacity, the Company joint-ventured with other company to establish Feng Sheng Livestock Co., Ltd.

Merger and acquisition activities, strategic investments in affiliates, corporate reorganization, transferring or otherwise changing hands of a major quantity of shares belonging to directors or shareholders with 10% or more shareholding of the Company, any change in managerial control, any material change in operating methods or type of business, and any other matters of material significance that could affect shareholders' equity for the most recent year and as of the date of publication of the Annual Report: None.

Corporate Governance Report

Note: Please refer to the No. 5~8, paragraph 1, Article 3 of “Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies”

The diversity and independence of the Board of Directors

- (1) The diversity of the board of directors: The Company has developed a diversified policy for composition of the Board members in Article 20 of its “Corporate Governance Best-Practice Principles”. The nomination and election of the member of the Board is accordance with the Articles of Incorporation of the Company and related regulations. The election of directors is adopted by candidate nomination system, after evaluating the qualifications by the dedicated department, it will be proposed to the Board for reviewing and be listed as candidates, and then to be submitted to the shareholders’ meeting for election.

The Board of Directors of the Company shall direct company strategies, supervise the management, and be responsible to the company and shareholders. The various procedures and arrangements of its corporate governance system shall ensure that, in exercising its authority, the Board of Directors complies with laws, regulations, its articles of incorporation, and the resolutions of its shareholders meetings.

The structure of the Company's Board of Directors shall be determined by choosing an appropriate number of board members, not less than five, in consideration of its business scale, the shareholdings of its major shareholders, and practical operational needs.

The composition of the Board of Directors shall be determined by taking diversity into consideration. It is advisable that directors concurrently serving as company officers not exceed one-third of the total number of the board members, and that an appropriate policy on diversity based on the company's business operations, operating dynamics, and development needs be formulated and include, without being limited to, the following two general standards:

- A. Basic requirements and values: Gender, age, nationality, and culture, etc.
- B. Professional knowledge and skills: A professional background (e.g., law, accounting, industry, finance, marketing, technology), professional skills, and industry experience.

All members of the board shall have the knowledge, skills, and experience necessary to perform their duties. To achieve the ideal goal of corporate governance, the Board of Directors shall possess the following abilities:

- A. Ability to make operational judgments.
- B. Ability to perform accounting and financial analysis.
- C. Ability to conduct management administration.
- D. Ability to conduct crisis management.
- E. Knowledge of the industry.
- F. An international market perspective.
- G. Ability to lead.
- H. Ability to make policy decisions.

The Company pays attention to the diversity for composition of the Board members and sets the target to maintain the current diversified status that are the percentage of Thailand directors is above 30% and at least one director who has accounting or financial expertise. We will also continue to implement the diversified policy for composition of the Board members based on the develop requirements in the future.

The Company has 8 directors. The percentage of Thailand directors is about 38% while the percentage of Taiwan directors is about 62%. The Board members all have decades work experience and are with diversified expertise such as operational management, the knowledge of the industry, lead and decisions making, finance, accounting, and architecture can effectively perform its monitoring and managing functions. The directors’ nationality, primary experience (education), professional qualifications and experience please refer to page 10-12 of the Annual Report.

- (2) The independence of the Board of Directors:

The Company has 8 directors, including 3 independent directors, accounted for about 38%, and none of the independent directors has the tenure of independent directors exceeded three terms. Every director and independent director not having been a person of any conditions defined in the paragraph 3 and 4, Article 26-3 of the Securities and Exchange Act. Please refer to page 10 “Directors” that all directors not having a marital relationship, or a relative within the second degrees of kinship to any other director of the Company.

5. The state of the company's promotion of sustainable development, any variance from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, and the reason for any such variance

Promotion Item	Implementation Status			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Abstract Explanation	
1. Does the company have a governance structure for sustainable development and dedicated (or ad-hoc) sustainable development organization with Board authorization for senior management, which is reviewed by the Board?	V		The Company officially established the dedicated team in charge of the corporate social responsibility on Feb. 5, 2015, with the CEO serving as the convener. The dedicated team reports to the Board regarding handling situations. The status of preparing ESG report was reported to the Board of Directors on Aug. 8, 2022.	Compliant
2. Does the Company follow materiality principle to conduct risk assessment for environmental, social and corporate governance topics related to company operation, and establish risk management related policy or strategy?	V		In order to improve the risk management mechanism, the Company’s ESG working group followed materiality principle to conduct impact assessments targeting to the level of influence of the issues stakeholders’ care about, and examine industry trends and current industry conditions to identify major themes. At the same time, to respond to the six visions of the CPF Way proposed by the CP Group: 1. Benefits for the Country, the people, and the Company 2. Adapt to change 3. Speed & Quality 4. Innovativeness 5. Simplification 6. Integrity, Honesty and Reciprocity ESG working group is composed of six teams including corporate governance, employees care, food safety, customer service, sustainable environment and community participation. Each team continuously communicates and manages internally and externally regarding to their responsible issues, and assess and track the corporate social responsibility related risks and performance by external consultants’ assistance. Please refer to page 17-21, 25 of the 2021 CPE ESG Report for details.	Compliant
3. Environmental Issues (1) Does the Company establish proper environmental management systems based on the characteristics of their industries?	V		In order to make the Company’s waste water, waste, noise, chemicals, etc. meet the Government’s environment protection requirements, the “Guidelines for Environmental Safety Management Operations” has been set up to effectively achieve the goals of environmental safety maintenance, energy conservation, and carbon reduction. The company regularly conducts online reporting and management of industrial waste at the Environmental Protection Agency's Industrial Waste Control Center, in order to maintain the environment and comply with legal requirements.	Compliant

Promotion Item	Implementation Status		Abstract Explanation	Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No		
(2) Is the Company endeavor to utilize the resources more efficiently and use renewable materials which have low impact on the environment?	V		<p>Quality management system: The Nantou Meat Processing Plant was accredited ISO 9001 in 1999. Taichung and Kaohsiung Feedmills were accredited ISO 9001 in 2000. The Nantou Further Processing Plant was accredited ISO 9001 in 2014.</p> <p>Food Safety Management System: The Nantou Meat Processing Plant was accredited HACCP in 2002. The Nantou Meat Processing Plant was accredited ISO 22000 in 2007. The Nantou Further Processing Plant was accredited ISO 22000 in 2014.</p> <p>In order to reduce the impact of operating activities on the environment, the company prepares a budget every year to invest in environmental protection work. In addition to pollution prevention and control expenditures, it also includes investment in process improvement and equipment replacement, so as to implement the group's business philosophy of "benefits for the Country, the People, and the Company."</p> <p>For the waste part, the waste generated in the production process of each production line, such as general business waste, chicken manure, feathers, bones, viscera, sludge, waste frying powder and plastic packaging materials, is all classified and processed, and hired the environmental protection companies to handle the waste, resources will be recycled and reused to reduce the resource and energy consumption of products and services. The company continues to introduce the improvement of energy-saving, energy equipment, and build a solar power generation system to enhance benefits of energy-saving and carbon-reduction.</p>	Compliant
(3) Does the Company evaluate potential risks and opportunities in climate change with regard to the present and future of its business, and take appropriate action to counter climate change issues?	V		<p>The issue of climate change has been widely discussed in recent years. According to the characteristics of the industry, the Company actively finds feasible countermeasures and responding actions by identifying the risks and opportunities of climate change to lower the impacts resulted from climate change. Please refer to page 69 of the 2021 CPE ESG Report for details.</p>	Compliant

Promotion Item	Implementation Status			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons																										
	Yes	No	Abstract Explanation																											
(4) Does the Company take inventory of its greenhouse gas emissions, water consumption, and total weight of waste in the last two years, and implement policies on energy efficiency and carbon dioxide reduction, greenhouse gas reduction, water reduction, or waste management?	V		<p>The Environmental Team regularly discloses quantitative indicators related to climate every year, including electricity intensity, total electricity consumption, total volume of GHG Emissions of Scope 1 and 2, and GHG Emission intensity. GHG Emission of the 2020 and 2021:</p> <p style="text-align: right;">Unit: tons CO₂e</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="4">CPE GHG Emissions</th> </tr> <tr> <th colspan="2">CO₂, equivalent</th> <th>2020</th> <th>2021</th> </tr> </thead> <tbody> <tr> <td rowspan="2">Feedmill</td> <td>Scope 1</td> <td>6,896</td> <td>6,776</td> </tr> <tr> <td>Scope 2</td> <td>14,761</td> <td>14,363</td> </tr> <tr> <td rowspan="2">Meat Processing Plant</td> <td>Scope 1</td> <td>33,638</td> <td>38,496</td> </tr> <tr> <td>Scope 2</td> <td>24,415</td> <td>25,507</td> </tr> <tr> <td colspan="2">Total</td> <td>79,712</td> <td>85,142</td> </tr> </tbody> </table> <p>The Company’s feedmills and meat processing plant are equipped with wastewater treatment equipment, which is handled by special personnel. In recent years, due to the increase in production volume, sewage treatment equipment has been added and waste water management has been strengthened to be compliant with the discharge standards to be incorporated into the sewage treatment plant of industrial zone, and has been effectively controlled to be lower than the discharge standard amount announced by the government.</p> <p>The company is committed to waste reduction management, with the strategy of reducing the total amount of waste and recycling waste as resources, through the process equipment technology (additional purchase of new sewage treatment equipment and introduction of sludge dryer) → water containing rate of food processing sludge declines → green energy recycling (compost, anaerobic biogas power generation → biogas → power generation, biomass fuel → steam → power generation) → reduce waste output, achieve waste reduction → reduce environmental load.</p> <p>Sustainable Energy and Environmental Management please refer to page 70-80 of the 2021 CPE ESG Report for details.</p>	CPE GHG Emissions				CO ₂ , equivalent		2020	2021	Feedmill	Scope 1	6,896	6,776	Scope 2	14,761	14,363	Meat Processing Plant	Scope 1	33,638	38,496	Scope 2	24,415	25,507	Total		79,712	85,142	Compliant

8. Other Important Information Regarding Corporate Governance : None.

9. Internal Control Systems

(1) Statement of Internal Control System

Date: March 13, 2023

Based on the findings of a self-assessment, Charoen Pokphand Enterprise (Taiwan) Co., Ltd. (CPE) states the following with regard to its internal control system during the year 2022:

1. The Board of Directors and management of CPE are responsible for establishing, implementing, and maintaining an adequate internal control system. Our internal control is a process designed to provide reasonable assurance over the effectiveness and efficiency of our operations (including profitability, performance and safeguarding of assets), reliability, timeliness, transparency of our reporting, and compliance with applicable rulings, laws and regulations.
2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing its stated objectives. The effectiveness of an internal control system may be subject to chances due to extenuating circumstances beyond our control. Nevertheless, our internal control system contains self-monitoring mechanisms, and CPE takes immediate remedial actions in response to any identified deficiencies.
3. CPE evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (herein below, the Regulations). The criteria adopted by the Regulations identify five key components of managerial internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities.
4. CPE has evaluated the design and operating effectiveness of its internal control system according to the aforesaid Regulations.
5. Based on the findings of such evaluation, CPE believes that, on December 31, 2021, it has maintained, in all material respects, an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability, timeliness, transparency of reporting, and compliance with applicable rulings, laws and regulations.
6. This Statement is an integral part of CPE's Annual Report and prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Law.
7. This statement was passed by the Board of Directors in their meeting held on March 13, 2023, with none of the eight attending directors expressing dissenting opinions, and the remainder all affirming the content of this Statement.

Charoen Pokphand Enterprise (Taiwan) Co., Ltd.

Chairman : Wu Yeh, Cheng

CEO : Thong Chotirat

(2) If the company has commissioned external auditors to review the company's internal control system, the external auditor's report should be disclosed: None.

Note 1 : The Proposal for Distribution of 2022 Profits is not yet resolved by the general shareholders' meeting.

Note 2 : Price / Earnings Ratio = Average Market Price / Earnings per Share

Note 3 : Price / Dividend Ratio = Average Market Price / Cash Dividends per Share

Note 4 : Cash Dividend Yield Rate = Cash Dividends per Share / Average Market Price

6. Dividend Policy and Implementation Status

(1) Dividend policy under Articles of Incorporation :

The Company is in the stage of stable growth, considering the capital demand of the Company and the cash inflow that the shareholders desire, while the Company has profit as a result of the annual final accounting, after the Company paid all taxes, dues and offset its accumulated losses, shall first set aside 10% of such profits as legal reserve, then set aside or reverse special reserve in accordance with the laws and regulations requested by the competent authority. The remaining surplus profits along with the un-appropriated retained earnings of the previous years shall be distributed as shareholders' dividends in accordance with the resolution of shareholders' meeting. Cash dividends shall not be less than 10% of the total distributed dividends. While the cash dividends per share is less than NT\$0.1, the cash dividends shall be distributed in the form of stock dividends.

(2) The Board of Directors considered the capital demand and the cash inflow that the shareholders desire, the Company plans to distribute more than 30% of Profit for the current year as shareholders' dividends.

(3) The Proposal for Distribution of 2022 Profits: The 2022 distribution of Surplus Earnings was resolved at the meeting of Board of Directors that cash dividend NT\$3.5 per share will be distributed and reported to the Annual General Shareholders' Meeting;.

7. Impacts of Stock Dividends on Operation Results and EPS : NA.

8. Compensation of Employees, Directors and Supervisors

(1) Information Relating to Compensation of Employees, Directors and Supervisors in the Articles of Incorporation : When the Company has profit of the current year, at least 1% or more shall be distributed as employees' bonuses. In case that the Company has accumulative losses, a sufficient amount shall be reserved to offset its accumulative losses in advance. In addition, the Company doesn't distribute Directors' Compensation.

- (2) The basis for estimating the amount of employees' compensation, for calculating the number of shares to be distributed as employees' compensation, and the accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period:

The basis for estimating the amount of the employees' compensation is in accordance with Article 29-1 of the Company's Articles of Incorporation. If the amount resolved by the Board differs from the previously estimated, the difference will be handled based on the accounting estimation, which will be recognized as the 2023 annual profit (loss).

- (3) Distribution of Compensation for 2022 Resolved at the meeting of Board of Directors.

A. Distribution of Compensation of Employees in Cash or Stock:

The 2022 employees' compensation is NT\$19,500,000 which was approved by the Board of Directors on Apr. 24, 2023, and totally distributed in cash.

The amount of 2022 employees' compensation resolved by the Board increased by NT\$442,000 compared with the estimated amount of NT\$19,058,000 in the 2022 financial report. The amount difference is mainly due to an estimation difference and shall be handled based on the accounting estimation, which will be recognized as the 2023 annual profit (loss).

B. The amount of any employee compensation distributed in stocks, and the size of that amount as a percentage of the sum of the after-tax net income stated in the parent company only financial reports for the current period and total employee compensation: N/A.

- (4) Information regarding the Distribution of Compensation of Employees, Directors and Supervisors for the previous year: 2021 Distribution of Employees' Compensation was NT\$17,157,760 while the distribution of Directors' remuneration was NT\$ 0. The above-mentioned actual distribution of compensation of employees, directors was in line with the resolution of the Board of Directors.

9. Buyback of Treasury Stock: None.

II. Bonds : None.

III. Preferred Shares : None.

IV. Global Depository Receipts : None.

V. Employee Stock Options, New Restricted Employee Shares : None.

VI. Status of New Shares Issuance in Connection with Mergers and Acquisitions : None.

VII. Financing Plans and Implementation

1. Finance Plans

For each uncompleted public issue or private placement of securities, and for such issues and placements that were completed in the most recent three years but have not yet fully yielded the planned benefits: None.

2. Implementation

Capital received from previously-issued corporate bonds has been fully executed according to the required procedures: NA.

Operational Highlights

I. Business Activities

1. Business Scope

(i) Main activities of business operations

- (1) Operation of Livestock Farm
- (2) Animal Husbandry
- (3) Livestock Farming
- (4) Slaughter
- (5) Canned, Frozen, Dehydrated Food Manufacturing
- (6) Instant Food Manufacturing
- (7) Other Food Manufacturing Not Elsewhere Classified
- (8) Prepared Animal Feeds Manufacture
- (9) Wholesale of Animal Husbandry, Aquatic Products, Food and Grocery, Animal Feeds
- (10) Retail sale of Husbandry Products, Aquatic Products, Animal Feeds, Food and Grocery
- (11) International Trade
- (12) Agriculture, Forestry, Fishing, Animal Husbandry Consultancy, Food Consultancy, and Management Consulting Services
- (13) Biotechnology Services
- (14) Restaurants
- (15) Other Eating and Drinking Places Not Elsewhere Classified
- (16) Edible Oil and Fat Manufacturing
- (17) Wholesale of Edible Fat and Oil, Vegetables and Fruits, and Other Agricultural, Livestock and Aquatic Products
- (18) Wholesale of Food Additives
- (19) Retail Sale of Agricultural Products, Agricultural, Livestock and Aquaculture Products
- (20) Retail of Food Additives
- (21) Supermarkets
- (22) Convenience Stores
- (23) Retail Sale No Storefront

(ii) Product Items and the percentage

- | | |
|---|-------|
| – Feed and Extruded ingredients | 37.1% |
| – Livestock Fresh Meat | 40.0% |
| – Various Consumer Foods: | 22.9% |
| Chicken floss, ginseng chicken, ham, chicken nugget, chicken chop, fried chicken, chicken sticks, roasted chicken, pickled meat, etc. | |

(iii) New products scheduled for developing

- (1) Continuously develop Chinese-style and exotic cuisines, such as soups, curry, etc., to provide consumers more choices of delicious dishes.
- (2) Strengthen the development of snack products made by chicken, pork and duck.
- (3) Continuously develop and improve the manufacturing technology of clean label products.

2. Industry Overview

Relationship with up-stream, middle-stream and down-stream among the industry are feed, feathered chicken slaughter, fresh chicken/pork/duck, processed meat, and products-channel.

(1) Feed Industry

The variances in Taiwan's overall feed production quantity is adjusted based on the raising quantity of husbandry industry in Taiwan (including pigs, white broilers, colored chickens, ducks, bulls, etc.) as well as aquatic industry. In accordance with the 2021 Taiwan feed production survey report of the Council of Agriculture, there are 112 feed

mills in Taiwan and the total annual feed production is 5.98 million tons. In 2022, Taiwan chicken slaughter quantity decreased by about 1% and the pig slaughter quantity decreased by about 2% compared with 2021, but the waterfowl slaughter quantity increased by 7 % compared with 2021. The overall feed production quantity in 2022 was estimated to be unchanged.

(2) Livestock Fresh Meat

A. White Broiler Fresh Meat: According to the data of the Poultry Association Republic of China, the chick prices increased from the bottom of NT\$25 each bird at the beginning of the year to NT\$31 each bird while the feathered chicken prices increased from NT\$ 31.5 to NT\$34.8 per 600 grams in 2022. In addition, the import quantity of chicken increased 42 thousand tons from 176 thousand tons in 2021 to 218 thousand tons in 2022.

B. Live Pigs: According to the data of National Animal Industry Foundation (NAIF), the average prices of Taiwan live pig in 2022 is NT\$ 82.08 per kg, increased NT\$4.83 from NT\$77.25 per kg in 2021. According to the Pork data of Taiwan Food and Drug Administration, the import weight of pork in 2021 was 61 thousand tons and increase to 89 thousand tons in 2022 by 28 thousand tons.

(3) Consumer Foods

With small family groups and changes in consumption habits in Taiwan, the average amount of pork consumed by the people is originally higher than that of chicken each year. Changes have taken place in recent years. The trend in amount and types of meat consumed have transformed that the consumed amount of chicken has been greater than that of pork. The reason is considered as that pork is more inconvenient for young people to cook, in addition, with the trend of fitness is becoming more and more popular, chicken, as a simple cooking cuisine and widely used in processed food, is relatively easy to obtain, and furtherly affects the change of meat consumption structure.

3. Research and Development

(1) In the latest year and to the publish date of the Annual Report, the R&D expenditure was NT\$11.5 million, of which 80% were invested on manpower and time spent on successfully developed products.

(2) Successfully Developed Products:

A. Develop a variety of Chinese-style, exotic, and egg cuisines, such as Pepper Salt Taiwanese Fried Chicken, Crispy German Pork Knuckle, Pork Knuckle with Basil, Massaman Curry Chicken, Korean spice pork with Rice, Japanese-style Fried Egg, Deep-fried eggs with Thai sweet chill sauce, Mushrooms and Vegetables Omelette, etc., for consumers to enjoy delicious meal anytime anywhere in a more convenient and simple way.

B. Targeting the needs and trends for high-protein diets, further develop more flavored chicken breast salad products, such as European Curry, Provence-flavored, and Truffled Chicken Breast, and expand the sales market shares of each channel.

4. Long-term and Short-term Development

(1) Short-term Development:

A. To support the government's technologization and modernization development policy for agriculture and livestock industry, the Company has constructed the world's most advanced AI automated non-pharmaceutical feedmill in Douliou City, Yunlin County, the agriculture capital of Taiwan, in order to meet the international environmental protection standards and solve feed cross-contamination and food safety issues.

B. Introducing the world's most advanced cooling pad system and equipment and raising and breeding technology, the Company thereby set the milestone for Taiwan heading towards high-tech automation.

C. Introduce one-stop egg hen management to ensure sufficiency in egg supply.

(2) Long-term Development:

- A. By introducing the Group's world-class technologies and the most advanced equipment, the Company's technology level of breeding, livestock breeding, feed, and meat processing will be expected to improve.
- B. Adhering to the philosophy of "No biological safety, No food safety", the Company insists on rigorous quality control and completed traceability from raw material supply chain management, processing, warehousing to products delivering in order to ensure the food safety and provide consumers the highest quality meat which is safe, healthy, convenient, hygienic, and affordable.
- C. Continue to strengthen the existing intensive brand marketing, deep-plow channel marketing strategies, and develop new e-commerce channels.

II. Market and Sales Overview

1. Sales Region and Market Share (%)

The Company's main products are feed, white broiler fresh meat and processed chicken products, which are mainly for domestic sales. The sales regions are nationwide. The major product market overview is summarized as follows:

- (1) Feed: The Company's 2022 feed production was approximately 850,000 tons, which mainly consist of chicken, pig and duck feed products, accounting for about 15% of the overall market. The targets of sales are privately-operated breeders, contract breeders and self-owned farms. The main market area is Central Taiwan, accounting for 63.7%, while Southern and Northern Taiwan are accounting for 25.7% and 10.6% respectively. In response to the environmental protection and health trends, the Company provides the domestic breeding industry with feed products free of safety concerns. The Company invested in a feed mill with a monthly capacity of 20,000 tons in Douliou City, Yunlin County, which has commenced production in the second quarter of 2022.
- (2) Livestock Fresh Meat
 - A. White Broiler Fresh Meat: The Company is the first vendor to have white broiler electric slaughter equipment in Taiwan. After years of efforts, the Company adopts the vertical integration business strategy, from feed, meat chicken, chicken contract raising to white broiler slaughter in order to strictly control quality and reduce production costs. Currently, the daily slaughter capacity is 160,000 birds. The overall electric slaughter capacity in 2022 was 45.04 million birds. The market distribution comprises Northern Taiwan (33%), Central Taiwan (43%), and Southern Taiwan (24%), accounting for about 17.5% of the overall white broiler market.
 - B. Live Pigs: The Company adopts the vertical integration business strategy from feed, breeding pig, fattening pig contract raising, etc. to strictly control quality and reduce production costs. According to the data of NAIF, the auction head amount in Taiwan live pig market is 6,176 thousand heads in 2022, decreased from 6,317 thousand heads in 2021 by 141 thousand heads.
- (3) Consumer Foods: The Company has actively developed lean streamline service from farms to table over years, not only engaged in sales of fresh chicken meat and pork, but also dedicated to research and develop processed chicken or pork products, such as ready-to-eat chicken breast salad, boneless fried chicken, black pepper chicken nuggets, braised pork shank, European grilled ribs, etc. which spread across the Taiwan traditional markets, supermarkets, convenience stores, and catering industry. The primary consumer foods is chicken processed products which is about 2,350 tons of monthly production and the leading brand in the market. The market distribution comprises Northern Taiwan (43%), Central Taiwan (32%), and Southern Taiwan (25%)

2. Supply, Demand and Growth in Prospective Markets

- (1) In the first half of last year (2022), the raw materials of the domestic commodity industry was unable to be shipped on time which led to a busy domestic spot market in transactions. The CPE performed well in profits due to the abundant inventory of raw materials. In the second half of 2022, the shipments of raw materials arrived one after another, the epidemic of Avian Influenza became more severe, and the feed demand of the domestic husbandry industry declined gradually. The influence of Russia-Ukraine War started on Feb. 24, 2022 continues. The Futures of wheat hit a record high in March. After then, the Chicago Futures of Corn and Soybean both also reached their second high prices since the U.S. drought of 2012. In addition, U.S. Federal Reserve raised interest rate by 17 yards in 2022 to reduce inflation resulted in a strong U.S. dollar, which led to the increase of import exchange rate and higher loaning cost of U.S. dollar. The profits of the first half of 2022 were eroded due to the low demand and high cost situation. However, thanks to the hard work of the management team and all colleagues, the profits of CPE still reached the historical second high in 2022.
- (2) In 2023, there are no worries about the fundamentals of global crop supply. Whether the plenteous harvest of U.S. grain last fall or expected abundant crop in Brazil this year could be enough to make up for the expected harvests decline in Argentina caused by the drought. In addition, although the Russia-Ukraine War has not ended yet, the grain was shipped out from the Black Sea ports one after another that the adequate supply of grains shall be no suspense. The freight rates of shipping declined in the first quarter of 2023 compared with 2022. Then, it is necessary to observe the economic recovery of each country around the world, especially the domestic demand of China after the opening borders, which will drive the upward or downward trend of freight rates in the future. It is expected that the momentum of the commodity this year will be affected by the external market and political and financial fluctuation far greater than the fundamentals of demand and supply. The pandemic of Avian Influenza in domestic and even happened all over the world is not expected to slow down significantly in the first half of the year. We look forward to having the warmer summer and improvement of breeding environments. Before seeing the reversion of the demand in the first half of the year, it is necessary to focus on the raw materials stocking and inventories controlling to avoid oversupply. With its steady and prudent way of raw material procurement and complete vertical integration of the industry, CPE, as a pioneer in the industry, keep in mind that food is the first necessity of the people. Not only depend on each other with the downstream farmers, but also take the responsibility to provide the stable sources of daily necessary food for consumers. Currently, the global political and economic situation is still unpredictable and unclear and the high cost could not be responded by the high market price. How difficult is for the operation of the feed and husbandry industry could be imagined. If prices of raw materials during the second half of this year could be lower than last year, at that time another good performance could be expected.
- (3) With a sustainable operation mission, CPE looks forward to the future with optimism and will be devoted to optimize the existing plants and farms and actively invest in new production capacity at all levels.
 - A. The egg washing plants established to cooperate with the washing and sorting policy promoted by the Council of Agriculture, the new plant of the affiliated company, Sheng Da Foods Co., Ltd, which is invested by the affiliated company, Rui Fu Foods Co., Ltd., is fully put into operation. There are three new production lines which are the washing and sorting machine, boiled egg production line, and liquid egg sterilization production line respectively. The capacity will be effectively improved.

- B. The Company purchased 2,105 square meters of land in Guishan Dist., Taoyuan City, and is projected to invest NT\$627 million to build a meat further processing plant which meets the CAS standards. The new meat processing plant will united the retail and distribution centers in Taoyuan, Sijih Junghe and Taishan, and centralize the cutting and selling together. The new meat processing plant will also join the pork cutting business. The construction of the new meat processing plant is expected to start this year and completed in 2024.
- C. The AI-automatic feedmill with a drug-free feed production line in Douliou Cit, Yunlin county is planned to be with a yearly capacity of 480 thousand tons and to produce 240 thousand tons in the beginning period. The feedmill is expected to increase the CPE feed market shares which is expected to be more than 20%.

In the future, the Company will continue to increase investment, cooperative with the Government, meet the people's expectation, and further move towards to high-value, refined and diversified products to provide stable and high-quality products to the domestic people and have a better and more perfect growth.

3. Advantages in Competition

- (1) The Company has been proactively establishing the business model for the upstream, middle-stream and downstream vertical integration of feed, feathered chicken slaughter, fresh chicken/pork/duck, processed meat, and products-channel integration has significantly gained a competitive niche.
- (2) The operation of existing global international products purchasing information online system previously established has make the best use of our advantage in materials.
- (3) For a long time, the Company has continuously invested heavily on strengthening the upstream and downstream agriculture and livestock supply chain layout, introduced the world's most advanced equipment featuring both environmental protection and safety into the Company, and enhanced the Company's standard of breeding, livestock breeding, feed, meat processing, and egg technology, which have one after another shown a competitive niche in terms of operating performance growth momentum.

4. Favorable and Unfavorable Factors in the Long Term and Countermeasure

- (1) Favorable Factors:
 - A. With the solid foundation of vertical integration, product costs and quality can be easily controlled to enhance competitiveness.
 - B. Affordable and high-quality products coupled with after-sales services and continuous R&D are the niches of future market competitiveness.
 - C. Products are necessities to public. By providing consumers with safe, healthy, convenient, affordable, and high-quality products that gain consumers' recognition, the Company's image as the leading brand can be established.

- (2) Unfavorable Factors:
 - A. Limited of land. Land, as symbol of wealth instead of production tools, is high in cost.
 - B. The investment costs increase due to the soaring environmental protection standards.
 - C. After Taiwan joined the WTO, it is bound to be subject to the external pressure of product competitiveness.

- (3) Countermeasure:

In order to recreate the corporate, the C.P. Taiwan must strengthen itself by transforming from the traditional business of the past into an internationalized, commercialized, technologized, and eco-friendly consuming business group in order to take on internationalized and liberalized challenges of the future world trade and ensure the Company's steady growth and sustainable operation.

5. Important application and production Procedures of Major Products

- (1) 100% of the chicken, duck, pig feed is to provide the domestic suppliers. Fresh chicken meat, pork and processing products are manufactured for all Taiwan areas.
- (2) Production Processes of Major Products :

A. Feed:

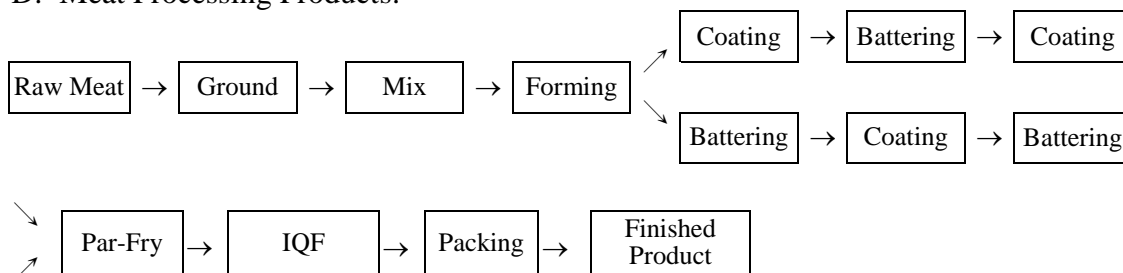

B. Fresh Chicken Meat:

C. Live Pigs: Not Applicable since the Major Product is live pig.

D. Meat Processing Products:

E. Processed Food :

6. Supply Status of Main Materials

(1) Feed:

The transnational group has set up a professional management team to share rich experiences and information network, make accurate predictions in facing climate change, and provide the procurement strategy in response to market situations. Based on the regional characteristics, assistance has been offered in equipment upgrade, productivity enhancement, and R&D and innovation to increase added value of products. The cooperation mode with farmers has also been reinforced, not only to reduce the risk of agricultural product price fluctuations, but also to ensure breeding efficiency and quality, thereby successfully expanding breeding scale, maintaining productivity, and enhancing quality stability.

(2) Fresh Chicken Meat:

The Company, cooperating with farmers based on different breeding contract, is provided with high-quality, hygienic and safe feathered chickens, which are the raw material sources of high-quality meat.

(3) Live Pigs: Not Applicable since the Major Product is live pig.

(4) Meat Processed Products and Prepared Food:

The meat is purchased from self-operated electric slaughter plants or domestic and foreign markets in order to supply various fresh meat required by the processed and prepared food of chicken, pork, local-raised chicken and duck.

7. Major Suppliers and Clients

(1) Major Suppliers in the Last Two Years

Unit: NT\$ thousand

Item	2021				2022				2023 (As of March 31)			
	Name	Amount	Percent %	Relation with the Company	Name	Amount	Percent %	Relation with the Company	Name	Amount	Percent %	Relation with the Company
1	A (Note1)	2,873,833	15.30	None	A (Note1)	2,466,132	10.92	None	-	-	-	-

	Below Senior High School	32.6%	30.0%	30%

IV. Environmental Protection Expenditure

1. Environmental Protection Policy: The Company has been supporting the government's policy to protect environment. We have installed the cyclone (dust collection system) in Taichung and Kaohsiung plants and also have the dedicated personnel to be responsible for the waste material treatment in order to protect the environment of the factories and the surroundings. In addition, we have also employed some persons to be responsible for the waste water and the deodorized treatment from Nantou Poultry slaughtering plant and meat-further processing plant. Those persons follow the related criterion to pump waste water into the waste water treatment center in industrial district, besides, to hire the cleaning companies to help treating those waste materials. The above measures are confirmed by the local Environmental Protection Bureau.
2. Any losses suffered by the company in the most recent fiscal year and up to the Annual Report publication date due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental inspection) and countermeasures: Penalties for air, water and waste pollution is around NT\$ 2,985 thousand.

Disposition dates	Disposition reference numbers	Articles of law violated	Substance of the legal violations	Content of the dispositions
Jan. 5, 2022 ~ Mar. 17, 2023	No. 11036424400-1, No. 1110031024, etc.	Water Pollution Control Act: Article 7, 14, 18, and 21.	Exceeded effluent standards, Water pollution control measure and the using not complied with regulations, leakage of wastewater, dedicated personnel unable to often stay on-site due to some reasons, etc.	Penalties amounted to NT\$739,988 and attending environmental seminars.
May. 2, 2022~ Mar. 6, 2023	No. 1110008514, No. 1110010454, etc.	Waste Disposal Act: Article 44, 28, 31 and related regulations.	Professional technical personnel of waste disposal shall not concurrently have other position, piling waste resulted from construction, violating exceeding permitted volume of waste disposal plan, etc.	Penalties amounted to NT\$160,000 and attending environmental seminars.

Disposition dates	Disposition reference numbers	Articles of law violated	Substance of the legal violations	Content of the dispositions
Aug. 25, 2022~ Feb. 4, 2023	No. 1110078244, No. 11132048100, etc.	Air Pollution Control Act: Article 23 and 34	Air pollutants collection and treatment is not efficient resulted from the malfunction of control valve, did not control and monitor the normal operation of the facilities and did not make records daily pursuant to the permit contents, the dedicated personnel shall not concurrently have other position, etc.	Penalties amounted to NT\$1,040,000 and attending environmental seminars
Feb. 14, 2022~ Jan. 4, 2023	No. 1110035038, No. 1110307827, etc.	Air Pollution Control Act: Article 20	The odorous concentration of peripheral boundary and wastewater exhaust pipes exceeded the standard.	Penalties amounted to NT\$1,045,000 and attending environmental seminars.

3. The measures and estimated expenditure in the future:

2023

Anti-pollution equipment to be purchased

The waste water treatment equipment and dust collection equipment

Expected improvement situation

Improve the working environment

Amount

172 million

4. The impact of the improvement: Enhance the image of the Company, and improve the working environment.

5. Products have not yet been sold to EU countries. Therefore, the implementation of the “Restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS)” has no impact on the Group’s finance and business.

V. Labor Relations

1. The Implementation of Employee Welfare, Education, Training, Retirement Policy, as well as the Agreements between Employer and Employees and Employees' Rights Protection Measures:

Since meetings among the Company, departments and plants have created a good communication channel, followed by labor law and relevant law to protect employees' rights, so as to pay much attention to various kinds of employees' welfare, the relationship between employer and employees is good.

(1)The Employee Welfare Committee holds various employee welfare activities. In addition to the welfare fund distributed monthly by law, fund shortage will be subsidized by the Company.

(2)The Company Working Environment and Employee Safety Protection Measures:

A. Formulate a Safety and Health Manual that stipulates safety management matters for employees to follow

B. Strengthen equipment safety and improve environment hygiene.

C. Regularly check firefighting safety in November every year, and conduct fire drills twice a year.

(3)The employees' compensation includes monthly salaries and bonuses. The employees' salary standards are determined based on their positions, education and work experiences, professional expertise and market values. The initial salaries and bonuses is compliance with the Act of Gender Equality in Employment and will not be different due to gender, religion, political stance, and marital status. The annual budget for salary adjustment is about 2% or more (the Company's operating performance is according to financial indicators (such as the achievement rates of operating revenue, profits before income tax, and profits after the income tax) and non-financial indicators (such as the performance such as the compliance of laws and regulations of belonging departments and major deficiencies in operational risk issues.)) The salaries are adjusted to be in line with the market levels and based on the principle of fairness. As of the employees' bonus, it is determined based on their positions and performance as encouragement. The vision is for employees to work as a team with the Company for mutual benefits and common prosperity to achieve the sustainable business operation.

(4)The Company has defined retirement pension plans in accordance with the Labor Standards Act for the employees recruited before July 1, 2005. The retirement pension for employees is based on their number of working years. The Company contributes monthly an amount equal to specific percentage of the employees' monthly salaries and wages to the retirement fund deposited with the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. When employees retire, the pension is directly paid by the fund. For the employees hired after July 1, 2005 or existing employees choosing to go with the new pension plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance.

(5)The annual training program is shown in the following table:

Category	Audience	Training Content	Hours
1. Management Skills	1. Senior Executives (CEO, Vice President, etc.)	Globalized trend of agriculture and livestock food industry, CP Group's vision and business strategy, E-management advantages, Enterprise Resource Planning (ERP) integration.	36
	2. Middle-rank supervisors (Managers, Division heads, etc.)	CP Group vision and business strategy, ERP integration, Operating processes and Importation of electronic form management system.	36
	3. Grassroots supervisors (Section heads, management trainee)	T.W.C quality management, Project management, Cost control management, and Electronized Standard Operating Procedure (SOP) management.	72
	4. Salesmen/Planning staff	CP Group vision and business strategy, Electronized business management (visit plans, customer development, analysis of accounts receivable and sales, and relevant real-time information), Credit management, and Sales management.	72
	5. Finance, Accounting, Personnel, Procurement, Credit, Computer, Production, Quality control, and other personnel	Policies, Operating processes, and Establishment and importation of electronic form management system.	72
2. Professional Skills	1. Senior Executives (CEO, Vice President, etc.)	Economy cycle and trend of Taiwan's agriculture and husbandry products, Industrial competitiveness strategic analysis (prices/products/channels/promotions), Electronic real-time information website, and Establishment of online learning system	96
	2. Middle-rank supervisors (Managers, Division heads, etc.)	Establishment and use of related professional knowledge for scope of work responsibilities (production, marketing, personnel, R&D, finance, accounting, computer)	96
	3. Grassroots supervisors (Section heads, management trainee)	Related professional knowledge for scope of work responsibilities (production, marketing, personnel, R&D, finance, accounting, computer)	72
	4. Salesmen/ Planning staff	Related professional knowledge, such as marketing proposal planning, product F&B, sales skills, business regulations, etc.	72
	5. Finance, Accounting, Personnel, Procurement, Credit, Computer, Production, Quality control, and other personnel	Related professional knowledge for the dedicated Dept.	72

2. Any losses suffered by the company in the most recent fiscal year and up to the Annual Report publication date due to labor disputes (including labor inspection results found in violation of the Labor Standards Act) :

Disposition dates	Disposition reference numbers	Articles of law violated	Substance of the legal violations	Content of the dispositions
Aug.10, 2022	No. 1110192734	Labor Standards Act, Article 32, Paragraph 2.	Total number of overtime exceeded the regulated hours a month.	Penalty of NT\$60,000.
Aug.10, 2022 ~Feb. 14, 2023	No. 1110192737, etc.	Labor Standards Act, Article 36, Paragraph 1.	Did not have one day off as a regular leave every seven days.	Penalty of NT\$210,000.
Oct. 19, 2022	No. 1110250143	Labor Standards Act, Article 24.	Did not follow the regulations to pay overtime wages.	Penalty of NT\$60,000.

VI. Cyber security management:

1. Describe the cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management.

(1) Cyber security risk management framework

A secure information environment is not only composed of information technology and equipment, but also requires the information department and all employees to thoroughly implement information security policies to form an information security risk management framework. The Company's cyber security organization is as follows:

- A. The information department is managed by CFO. When any information security problems happened, it will be reported to the CFO.
- B. The Information department is divided into network/hardware management team and application development team.
- C. The application development team is responsible for the maintenance and development of the ERP systems.
- D. The network/hardware management team is responsible for information security of network, maintenance of hardware-related equipment, and management of user account password. As the information security management personnel, it is responsible for monitoring cyber security equipment and handling cyber security incidents.

(2) Cyber security policies

- A. Implement employee account password management and regularly change password to strengthen publicity information security. The system enforces a 90-day requirement for employees to change their passwords.
- B. Ensure the application software sets usage rights for different levels to avoid information leakage.
- C. Monitor the abnormal information generated by the firewall and SPAM at any time, and establish a processing mechanism. The abnormal information of the firewall and SPAM equipment is sent to the administrator's mailbox at any time.
- D. Update virus patterns, OS and application security in real time, and monitor and manage them. The virus pattern of the host updates synchronized every 1 hour, the virus pattern of the client updates synchronized every 30 minutes, the host OS and application security updates - the update synchronization is automatically checked every night.
- E. Establish a database backup mechanism and a file server backup mechanism to ensure data security. , DB and file server hosts automatically schedule backups to NAS and tape every night.

(3) Cyber security management programs

The processing flow of abnormal cyber security equipment

A. Firewall and network traffic monitoring

Check firewall status and adjust external intrusion and internal exception control settings from the firewall management interface. Monitor the network traffic management interface, block the abnormal computer network and check the software usage of this computer to eliminate it immediately.

B. SPAM monitoring (spam blocking host)

Check the email messages sent by the SPAM host to determine the processing status of the software and hardware, and remove them through the management interface or contact the original factory personnel for disposal.

C. Regular inspection of software and equipment safety

Operating system and antivirus software security update: The service provider regularly visits the factory every two months to perform host status check and software update services, and provides telephony remote processing services for special situations.

VPN equipment security: arrange service providers to check and update security every quarter. When equipment disconnection, abnormality or update occurs, the service provider will immediately send SMS and Mail notification and deal with it. Once the situation is eliminated, immediately call, SMS and Mail Feedback completion information.

(4) Investments in resources for cyber security management, Information security publicity content

A. Collection and Use of Personal Information

- a. The service information provided in accordance with personal work duties will not be arbitrarily disclosed to other third parties.
- b. When using the company's network system, the following information will be automatically collected: date and time, the URL of the webpage retrieved, and the action of accessing the network. This information may be used to improve the company's network traffic performance.
- c. For the above behaviors, the online behaviors that cause a heavy load on the company's network traffic will be monitored.

B. Information Security Responsibilities and Education and Training

- a. For those who handle confidential information and those who need to be given system management authority due to work needs, properly divide labor, decentralize power and responsibilities, establish an evaluation and assessment system, and establish a mutual support system for personnel as needed.
- b. The resigned employees should immediately notify the computer center and cancel all permissions to use various system resources.
- c. On the basis of roles and functions, for different levels of personnel, conduct information security education, training and publicity according to actual needs, so that employees can understand the importance of information security, various possible security risks, improve employees' information security awareness, and promote their Comply with information security regulations.

C. Information Security Operations and Protection

- a. Establish operating procedures for handling information security incidents, and assign necessary responsibilities to relevant personnel so as to handle information security incidents quickly and effectively.

- b. Establish a change management notification mechanism for information facilities and systems to avoid loopholes in system security.
- c. Establish system backup equipment, and regularly perform necessary data and software backups, so that operations can be quickly restored in the event of disasters or storage media failures.
- D. Network Security Management
- a. For the outlets connected to the external network, set up firewalls to control the data transmission and resource access of the external and internal networks, and perform rigorous identification operations.
- b. Confidential and sensitive information or documents shall not be stored in the information system open to the outside world, and confidential documents shall not be transmitted by e-mail.
- c. Regularly conduct anti-virus checks on internal network hosts and personal computers, and regularly update the virus patterns of the anti-virus system, as well as various security measures.
- E. System Access Management
- a. According to the operating system and security management requirements, formulate the password issuance and change procedures and make records.
- b. When logging in to each operating system, according to the system access authority necessary for personnel at all levels to perform their tasks, the information room system administrator shall set up the account and password to grant the authority, and update it regularly.
2. List any losses suffered by the company in the most recent fiscal year and up to the Annual Report publication date due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: None.

VII. Important Contracts

Agreement	Counterparty	Period	Major Contents	Restrictions
Technical service agreement	Charoen Pokphand Group Co., Ltd.	1996/01~the date any of two parties intend to end the agreement.	Consulting for feed manufacturing, livestock raising, etc.	Non-disclosure of technic
Technical service agreement	Charoen Pokphand Group Co., Ltd.	The year-end of 2020 ~effective for 5years	Consulting for livestock raising	Non-disclosure of technic
Trademark licensing agreement	Charoen Pokphand Group Co., Ltd.	The year-end of 2020 ~effective for 5years	Authorizing to use Trademark "CP"	
Medium and long term loan	Taiwan Cooperative Bank	2020/12~2030/12	Medium and long term mortgage loan	
Medium and long term loan	Chang Hwa Bank	2019/04~2026/04	Medium and long term mortgage loan	
Medium and long term loan	Agricultural Bank of Taiwan	2020/09~2037/10	Medium and long term mortgage loan	
Medium and long term loan	Bank of Taiwan	2020/11~2030/10	Medium and long term mortgage loan	
Medium and long term loan	CTBC Bank	2021/04~2031/04	Medium and long term mortgage loan	

Financial Information

I. Five-Year Financial Summary

1. Condensed Balance Sheet

Consolidated Condensed Balance Sheet

Unit: NT\$1,000

Analysis of financial ratio differences for the last two years. (Not required if the difference does not exceed 20%)

- The interest earned ratio decreased. The Group increased borrowing to support investments in the fixed assets in order to continuously promote the vertical integration of the industrial chain. However, due to the double impacts of the increasing U.S. interest rate and supply and demand of the domestic capital market, the interest expenses of the year 2022 increased by more than 65% compared with the year 2021. Even though the revenue and profits increased by 14~15% compared with the last year through timely adjustment of operating strategy, the overall interest earned ratio of 2022 is still lower than last year affected by the increase in the interest expenses.
- The increase in cash flow ratio and cash reinvestment ratio was due to increase in net cash inflow from operating activities, increase in current liabilities, and increase in investment in plant and equipment and decrease in cash dividends. (For the related explanations refer to page 211 of Liquidity Analysis for the last two years)

- Note1: Financial information regarding the first quarter of 2023 has been verified by independent auditors.
- Note2: Based on weighted average number of outstanding shares after considering capital increase out of earnings or capital surplus during each year.
- Note3: The Proposal of Distribution of 2022 Profits has not resolved yet by Annual General Shareholders' Meeting.
- Note4: 1. Financial Structure Analysis
- (1) Debt Ratio = Total Liabilities / Total Assets
 - (2) Ratio of Long-term Capital to Property, Plant and Equipment = (Shareholders' Equity + Noncurrent Liabilities) / Net Property, Plant and Equipment
2. Solvency Analysis
- (1) Current ratio = Current Assets / Current Liabilities
 - (2) Quick ratio = (Current Assets - Inventories - Prepaid Expenses) / Current Liabilities
 - (3) Interest earned ratio = Earnings before Interest and Taxes / Interest Expenses
3. Operating Performance Analysis
- (1) Accounts receivable turnover (including accounts receivable and notes receivable related to operations) = Net Sales / Average Accounts Receivable (including accounts receivables and notes receivables related to operations).
 - (2) Average collection period = 365 / Accounts receivable Turnover
 - (3) Inventory turnover = Cost of Sales / Average Inventory
 - (4) Accounts payable turnover (including accounts payable and notes payable related to operations) = Cost of Sales / Average Accounts Payables (including accounts payable and notes payable related to operations).
 - (5) Average days in sales = 365 / Inventory Turnover
 - (6) Property, plant and equipment turnover = Net Sales / Average Net Property, Plant and Equipment
 - (7) Total assets turnover (times) = Net Sales / Average Total Assets
4. Profitability Analysis
- (1) Return on total assets = (Net Income + Interest Expenses * (1 - Effective Tax Rate)) / Average Total Assets
 - (2) Return on owners' equity = Net Income / Average Total Equity
 - (3) Profit margin = Net Income / Net Sales
 - (4) Earnings per share = (Profits Attributable to Owners of Parent - Preferred Stock Dividend) / Weighted Average Number of Shares Outstanding (Note5)
5. Cash Flows Analysis
- (1) Cash flow ratio = Cash Flows from Operating Activities / Current Liabilities
 - (2) Cash flow adequacy ratio = Five-year Sum of Net Cash Flows from Operating Activities / Five-year Sum of Capital Expenditures, Inventory Additions, and Cash Dividend
 - (3) Cash reinvestment ratio = (Net Cash Flows from Operating Activities - Cash Dividends) / (Gross Property, Plant and Equipment + Long-term Investments + Other Noncurrent Assets + Working Capita) (Note6)
6. Leverage Analysis
- (1) Operating leverage = (Net Sales - Variable Cost) / Operating Profit (Note7)
 - (2) Financial leverage = Operating Profits / (Operating Profits - Interest Expenses)
- Note 5: The following shall be noted when using the above formula for earnings per share:
- (1) It should be based on the weighted average number of shares of common stock rather than the number of issued shares at the end of the year.
 - (2) When there is a cash capital increase or treasury stock transaction, the period of time in circulation shall be considered in calculating the weighted average number of shares.
 - (3) In the case of capital increase out of earnings or capital surplus, the calculation of earnings per share for the past fiscal year and the fiscal half-year shall be retrospectively adjusted based on the capital increase ratio, without the need to consider the issuance period for the capital increase.
 - (4) If the preferred shares are non-convertible cumulative preferred shares, the dividend of the current year (whether issued or not) shall be subtracted from net profit after tax, or added to net loss after tax. In the case of non-cumulative preferred shares, if there is net profit after tax, dividend on preferred shares shall be subtracted from net profit after tax; no adjustment is required in case of loss.
- Note 6: Special attention should be paid to the following matters when carrying out cash flow analysis:
- (1) Net cash flow from operating activities refers to the net cash inflow from operating activities in the cash flow statement.
 - (2) Capital expenditures refer to the cash outflows for annual capital investment.
 - (3) The increase in inventory is counted only when the balance at the end of the period is greater than the balance at the beginning of the period. If the inventory decreases at the end of the year, it is counted as zero.
 - (4) Cash dividend includes cash dividends from common stocks and preferred stocks.
 - (5) Gross property, plant and equipment value refers to the total value of property, plant and equipment before subtracting accumulated depreciation.
- Note 7: The issuer shall classify the operating costs and operating expenses as fixed or variable according to their nature. If it involves estimation or subjective judgment, attention should be paid to its reasonableness and consistency.
- Note 8: Where company shares have no par value or where the par value per share is not NT\$ 10, any calculations that involve paid-up capital ratio shall be replaced with the equity ratio attributable to the owners of the parent company as stated in the balance sheet.

III. Audit Committee's Report for the Most Recent Year

Charoen Pokphand Enterprise (Taiwan) Co., Ltd.

Audit Committee's Review Report

The Board of Directors has submitted the Company's Business Report, Financial Statements and Proposal for Distribution of Surplus Earnings for the year 2022 to Audit Committee. The CPA firm of PricewaterhouseCoopers, Taiwan had audited the Financial Statements and issued the Audit Report. In accordance with the Article 14-4 of the Securities and Exchange Act and the Article 219 of the Company Act, we hereby submit the report.

To:

The 2023 Annual General Shareholders' Meeting of the Company

Convener of Audit Committee: Li, Yen Sung

Date: April 24, 2023

-
- IV. Consolidated Financial Statements for the Years Ended December 31, 2022, and Independent Auditors' Report : Please refer to page 73-145.
- V. Parent Company Only Financial Statements for the Years Ended December 31, 2022, and Independent Auditors' Report: Please refer to page 146-208.
- VI. Financial Difficulties of the Company and its Affiliates during the most recent year and as of the date of publication of the Annual Report:
None.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of Charoen Pokphand Enterprise (Taiwan) Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Charoen Pokphand Enterprise (Taiwan) Co., Ltd. and its subsidiaries (the "Group") as at December 31, 2022 and 2021, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Group's 2022 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2022 consolidated financial statements are stated as follows:

Evaluation of net realisable value of inventories

Description

Refer to Note 4(13) for accounting policies adopted for the valuation of inventories, Note 5(2) for uncertainty of accounting estimates and assumptions of valuation of inventories, and Note 6(5) for details of inventories. As at December 31, 2022, the carrying amount of inventories and allowance for inventory valuation losses amounted to NT\$2,658,028 thousand and NT\$9,953 thousand, respectively.

The main activities of the Group are the manufacturing and sales of animal feeds, fresh and processed meat products. As the market prices are affected by changes in macro-economic environment, there is a higher risk of inventory valuation losses. In addition, the evaluation of net realisable value of inventories is subject to management's judgement, and considering that feeds, fresh and processed meat products comprise most of the Group's inventories which is significant to the financial statements, the evaluation of net realisable value of inventories was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

1. Based on our understanding of the Group's operations and related industry, assessed the reasonableness of related policies and procedures applied to the net realisable value of inventories, and ascertained the consistent application.

2. Obtained statements of net realisable value of inventories as at the balance sheet date, validated source data of merchandise prices and recalculated the provision for inventory valuation losses in order to confirm consistent application of related procedures and policies.

Measurement of biological assets

Description

Refer to Note 4(15) for accounting policies adopted for biological assets, Note 5(2) for uncertainty of accounting estimates and assumptions in measuring fair value of biological assets, and Note 6(6) for details of biological assets. As at December 31, 2022, the carrying amount of biological assets amounted to NT\$2,559,662 thousand.

The Group's biological assets is mainly comprised of broiler chicken, breeder chicken, fattening swine and breeder swine, etc. Except when the fair value cannot be reliably measured, biological assets are measured at fair value less costs to sell on initial recognition and at the end of each reporting period. As the market prices of fresh, processed meat, livestock and poultry are affected by animal epidemic and market demand in Taiwan, biological assets with active market prices have a higher risk of fluctuations in fair value. Since the amount of biological assets is significant to the financial statements and the methods adopted in measuring each category of biological assets, market prices applied and items accounted for as costs to sell are all subject to management's judgement and with high uncertainty, the measurement of biological assets was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

1. Based on our understanding of the Group's operations and related industry, assessed the reasonableness of related policies and procedures applied in measuring biological assets, and ascertained the consistent application.

2. As at the balance sheet date, ascertained that all the active market prices information are available and reliable for biological assets measured at fair value less costs to sell. Also, validated the source data of active market prices and the reasonableness of the major components of costs to sell.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Charoen Pokphand Enterprise (Taiwan) Co., Ltd. as at and for the years ended December 31, 2022 and 2021.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Lin, Yi-Fan

Liao, Fu-Ming

For and on Behalf of PricewaterhouseCoopers, Taiwan

March 13, 2023

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

CHAROEN POKPHAND ENTERPRISE (TAIWAN) CO., LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2022 AND 2021
(Expressed in thousands of New Taiwan dollars)

1. HISTORY AND ORGANISATION

Charoen Pokphand Enterprise (Taiwan) Co., Ltd. (the “Company”) was incorporated on August 22, 1977 as a company limited by shares under the Statute for Investment by Overseas Chinese and the provisions of the Company Act of the Republic of China. The main activities of the Company and its subsidiaries (collectively referred herein as the “Group”) are the manufacture and sales of animal feeds, livestock, chicken and processed meat products. The Company’s common stock has been traded on the Taiwan Stock Exchange since July 27, 1987. The ultimate parent company, Charoen Pokphand Foods Public Company Limited (“CPF”), which was incorporated in Thailand, directly and indirectly holds 39% equity interest in the Company.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on March 13, 2023.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2022 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 3, ‘Reference to the conceptual framework’	January 1, 2022
Amendments to IAS 16, ‘Property, plant and equipment: proceeds before intended use’	January 1, 2022
Amendments to IAS 37, ‘Onerous contracts—cost of fulfilling a contract’	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2023 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers”, International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- (d) Biological assets measured at fair value less costs to sell.

B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

- (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.

B. Subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Main business activities	Ownership (%)		Note
			December 31, 2022	December 31, 2021	
The Company	Plenty Type Limited (Cayman Islands)	Management of producing and non-producing business investments	100.00	100.00	Note 3
The Company	Charoen Pokphand (Taiwan) Corp., Ltd.	Management of importing and exporting business	90.00	90.00	
The Company	Arbor Acres Taiwan Co., Ltd.	Husbandry, management of chickens to produce breeder chicken and daily chicken	50.00	50.00	Note 1
The Company	Rui Mu Foods Co., Ltd.	Management of layers and related business	68.00	68.00	
The Company	Rui Fu Foods Co., Ltd.	Management of layers and related business	51.00	51.00	Note 4 Note 5
Plenty Type Limited (Cayman Islands)	Chia Tai Lianyungang Co., Ltd.	Management of producing and non-producing business investments	99.99	99.99	
Rui Fu Foods Co., Ltd.	Sheng Da Foods Co., Ltd.	Management of eggs and related business	75.00	75.00	Note 2

Note 1: The Company's direct or indirect shareholding ratio does not exceed 50%. However, the Company holds more than half of the seats of the Board of Directors. Thus, the subsidiary was included in the consolidation.

Note 2: The Board of Directors of Sheng Da Foods Co., Ltd. resolved to increase its capital by cash in June 2021. Rui Fu Foods Co., Ltd. subscribed 6,000,000 ordinary shares for a total amount of \$60,000 in July 2021, and the registration had been completed. The shareholding ratio of Rui Fu Foods Co., Ltd increased to 75% from 60%.

Note 3: In October 2021, the Board of Directors of Plenty Type Limited (Cayman Islands) resolved to reduce its capital by \$150,012, equivalent to 23,376,623 shares.

Note 4: Rui Fu Foods Co., Ltd. increased its capital by cash in January 2021 and July 2021, and the Company subscribed ordinary shares proportionately to its ownership in the amount of 5,100,000 shares, equivalent to \$102,000. The registration for the changes had been completed.

Note 5: Rui Fu Foods Co., Ltd. increased its capital by cash in December 2022, and the Company subscribed ordinary shares proportionately to its ownership in the amount of 5,100,000 shares, equivalent to \$51,000. The registration for the changes had been completed.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in NTD, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
 - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value.

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(12) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads allocated based on normal operating capacity. It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(14) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell.

(15) Biological assets

Biological assets are measured at their fair value less costs to sell. Except for the case where the fair value cannot be measured reliably, they are measured at its cost less accumulated depreciation and impairment losses. Gains or losses on changes in fair value less costs to sell are recognised in profit or loss.

(16) Investment accounted for using equity method - joint ventures

The Group accounts for its interest in a joint venture using equity method. Unrealised profits and losses arising from the transactions between the Group and its joint venture are eliminated to the extent of the Group's interest in the joint venture. However, when the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, all such losses shall be recognised immediately. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.

(17) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Land improvements	3~30 years
Buildings and structures	3~60 years
Machinery and equipment	2~20 years
Transportation equipment	6 years
Leasehold improvements	3~20 years
Other equipment	3~20 years

(18) Leasing arrangements (lessee) - right-of-use assets / lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are fixed payments, less any lease incentives receivable.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
- (a) The amount of the initial measurement of lease liability; and
 - (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(19) Intangible assets

Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 years.

(20) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(21) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is measured over the period of the borrowings using the effective interest method.

(22) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes and accounts payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(23) Financial liabilities at fair value through profit or loss

A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges.

B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

(24) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expired.

(25) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior period. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(26) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded

as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

(27) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(28) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(29) Revenue recognition

A. Sales of goods

- (a) The Group manufactures and sells animal feeds, cooked food, agricultural livestock products and related consumable food products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no

unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

- (b) Revenue from sales of goods is recognised based on the price specified in the contract, net of the estimated volume discounts, sales discounts and allowances. Accumulated experience is used to estimate and provide for the volume discounts, sales discounts and allowances using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A deduction of accounts receivable is recognised for expected sales discounts and allowances payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are made with a credit term of 3 to 180 days, which is consistent with market practice.
- (c) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(30) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group’s accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. The Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2022, the carrying amount of inventories was \$2,648,075.

B. Measurement of fair value of biological assets

Except when fair value cannot be reliably measured, biological assets should be measured at fair value less costs to sell on initial recognition and at the end of each reporting period. The Group has to identify whether the active market prices are available for each category of biological assets, to determine the relevance between the nature of biological assets and the chosen market, and to decide which major items should be accounted for as costs to sell. The Group then estimates the fair value less costs to sell based on the information mentioned above. Any fluctuations in market price and costs to sell could materially affect the carrying amount of biological assets.

As of December 31, 2022, the carrying amount of biological assets was \$2,559,662.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash on hand and revolving funds	\$ 10,749	\$ 9,360
Checking accounts	4,447	4,135
Demand deposits	295,889	173,513
	<u>\$ 311,085</u>	<u>\$ 187,008</u>

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. As of December 31, 2022 and 2021, the Group has restricted cash and cash equivalents pledged as collateral totalling \$9,650, classified as other current financial assets and shown as ‘other current assets’. Refer to Note 8 for details.

(2) Financial assets and liabilities at fair value through profit or loss

<u>Items</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Current items:		
Financial assets mandatorily measured at fair value through profit or loss		
Non-hedging derivatives		
Forward foreign exchange contracts	\$ 11,791	\$ -

A. Amounts recognised in profit or loss in relation to financial assets and liabilities at fair value through profit or loss are listed below:

	<u>2022</u>	<u>2021</u>
Derivatives	\$ 919	\$ -

B. The Group entered into contracts relating to derivative financial assets and financial liabilities which were not accounted for under hedge accounting. The information is listed below:

<u>Current items</u>	<u>December 31, 2022</u>	
	<u>Contract amount (notional principal) (in thousands)</u>	<u>Contract period</u>
Forward foreign exchange contracts		
-Sell NTD buy USD	USD 2,000	2022. 10. 04~2023. 01. 03
-Sell NTD buy USD	USD 2,000	2022. 11. 14~2023. 02. 16
-Sell NTD buy USD	USD 2,000	2022. 10. 27~2023. 02. 03
-Sell NTD buy USD	USD 2,000	2022. 11. 09~2023. 02. 14
-Sell NTD buy USD	USD 1,000	2022. 11. 11~2023. 02. 15
-Sell NTD buy USD	USD 2,000	2022. 10. 04~2023. 01. 06
-Sell NTD buy USD	USD 2,000	2022. 10. 27~2023. 02. 03
-Sell NTD buy USD	USD 2,000	2022. 11. 11~2023. 02. 15

The Group entered into forward foreign exchange contracts to buy forward foreign exchange to hedge exchange rate risk of import proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

C. The Group has no financial assets and financial liabilities at fair value through profit or loss pledged to others.

(3) Financial assets at fair value through other comprehensive income

<u>Items</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Non-current items:		
Equity instruments		
Listed stocks	\$ 1,510,105	\$ 1,461,863
Valuation adjustment	1,149,680	1,113,152
	<u>\$ 2,659,785</u>	<u>\$ 2,575,015</u>

A. Amounts recognised in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	<u>2022</u>	<u>2021</u>
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognised in other comprehensive income	(\$ 74,167)	(\$ 316,380)
Dividend income recognised in profit or loss held at end of year	\$ 66,108	\$ 82,101

B. The Company and the subsidiary, Plenty Type Limited (Cayman Islands), holds CPF's shares, which are traded on the Thailand Stock Exchange. CPF is the ultimate parent company of the Group.

C. The Group has elected to classify equity investments that are considered to be strategic investments and steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$2,659,785 and \$2,575,015 as at December 31, 2022 and 2021, respectively.

(4) Notes and accounts receivable

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes receivable	\$ 411,234	\$ 416,032
Accounts receivable	\$ 2,739,261	\$ 2,387,003
Less: Allowance for uncollectible accounts	(8,387)	(16,162)
	<u>\$ 2,730,874</u>	<u>\$ 2,370,841</u>

A. The ageing analysis of accounts and notes receivable is as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Current	\$ 2,977,390	\$ 2,618,159
Up to 120 days	170,223	174,857
121 to 365 days	180	840
Over one year	2,702	9,179
	<u>\$ 3,150,495</u>	<u>\$ 2,803,035</u>

The above ageing analysis was based on past due date.

B. As of December 31, 2022 and 2021, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2021, the balance of accounts receivable and notes receivable from contracts with customers amounted to \$2,184,158.

C. The credit quality of accounts receivable was in the following category based on the Group's Credit Quality Control Policy:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
With guarantee	\$ 277,678	\$ 153,934
Without guarantee	2,461,583	2,233,069
	<u>\$ 2,739,261</u>	<u>\$ 2,387,003</u>

The Group holds commercial papers, real estate, guarantee deposits and deposits as collateral for accounts receivable.

D. As at December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes receivable were \$411,234 and \$416,032, respectively, while the amount that best represents the Group's accounts receivable were \$2,730,874 and \$2,370,841, respectively.

E. Information relating to credit risk of accounts receivable (including related parties) and notes receivable is provided in Note 12(2).

(5) Inventories

	December 31, 2022		
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 1,587,747	\$ -	\$ 1,587,747
Packing supplies	39,276	(259)	39,017
Work in progress	67,694	-	67,694
Finished goods	906,691	(5,180)	901,511
General merchandise	46,818	(4,514)	42,304
Inventory in transit	9,802	-	9,802
	<u>\$ 2,658,028</u>	<u>(\$ 9,953)</u>	<u>\$ 2,648,075</u>

	December 31, 2021		
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 1,051,158	\$ -	\$ 1,051,158
Packing supplies	36,673	(247)	36,426
Work in progress	28,046	-	28,046
Finished goods	707,157	(7,502)	699,655
General merchandise	52,399	(3,885)	48,514
Inventory in transit	13,427	-	13,427
	<u>\$ 1,888,860</u>	<u>(\$ 11,634)</u>	<u>\$ 1,877,226</u>

The cost of inventories recognised as expense for the year:

	2022	2021
Cost of goods sold	\$ 25,074,410	\$ 21,434,983
Gain on reversal of decline in market value	(1,681)	(127)
Others	9,714	6,263
	<u>\$ 25,082,443</u>	<u>\$ 21,441,119</u>

- A. The cost of goods sold includes the cost of selling biological assets.
- B. Others pertain mainly to gain and loss on physical inventory count and loss from disposal of leftovers and scraps.
- C. The Group reversed a previous inventory write-down which was accounted for as reduction of cost of goods sold because of the increase in market prices of certain finished goods.

(6) Biological assets

A. Biological assets

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Biological assets - current:		
Consumable biological assets	\$ 1,580,399	\$ 1,281,083
Consumable biological assets - changes in fair value less costs to sell	59,738	38,229
Bearer biological assets	1,031,798	835,009
Bearer biological assets - accumulated depreciation	(614,362)	(539,483)
	<u>\$ 2,057,573</u>	<u>\$ 1,614,838</u>
Biological assets-non-current:		
Bearer biological assets	\$ 604,654	\$ 531,928
Bearer biological assets - accumulated depreciation	(102,565)	(87,087)
	<u>\$ 502,089</u>	<u>\$ 444,841</u>

Consumable biological assets are those that are to be harvested as agricultural products or sold as biological assets. Bearer biological assets are those other than consumable biological assets.

B. Movements of biological assets are as follows:

	<u>2022</u>	<u>2021</u>
At January 1	\$ 2,059,679	\$ 1,833,155
Purchases	1,573,695	1,536,504
Costs and expenses input	9,288,585	7,812,052
Sales	(4,236,324)	(3,427,142)
Gain (loss) on changes in fair value less costs to sell	21,509	(12,738)
Transferred to inventories	(6,133,166)	(5,673,743)
Others	(14,316)	(8,409)
At December 31	<u>\$ 2,559,662</u>	<u>\$ 2,059,679</u>

C. Biological assets are comprised of broiler chicken, breeder chicken, fattening swine, and breeder swine, etc. Biological assets, other than fattening swine which are measured at fair value less costs to sell at each reporting date, are measured at cost less accumulated depreciation and impairment losses. The fair value of fattening swine is measured using quoted market prices as references.

The market prices or fair values at the present condition of breeders are unavailable due to short production cycle; the market prices or fair values at present condition of broiler chickens are difficult to obtain. The valuation based on a discounted cash flow method is considered unreliable given the uncertainty with respect to external factors such as climate, weather, diseases etc. Therefore, breeders and broiler chicken are measured using the cost approach. Cost

of biological assets includes all costs incurred during the growth cycle such as costs of new-born animals, feeds, and other farm costs. Bearer biological assets are depreciated using the straight-line method through the productive period of each biological asset. The productive period of breeder swine is approximately 24 ~ 36 months; the productive period of breeder chickens is approximately 30 weeks ~ 52 weeks. For the years ended December 31, 2022 and 2021, depreciation expense on biological assets amounted to \$481,762 and \$509,511, respectively.

D. Estimates of physical quantities of biological assets are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Livestock production:		
Estimates of physical quantities (Units: heads)	<u>5,806,461</u>	<u>5,385,387</u>

E. Financial risk management policies

The Group is exposed to commodity risks arising from changes in market prices of chickens and swine. The Group does not anticipate that the prices of the agricultural products will decline significantly in the foreseeable future and there is no available derivative or other contracts. The Group reviews the predictions of the prices of the agriculture products regularly, and considers such predictions in assessing financial risk.

(7) Investment accounted for using equity method – joint ventures

The carrying amount of the Group's interests in all individually immaterial joint ventures and the Group's share of the operating results are summarised below:

As of December 31, 2022 and 2021, the carrying amount of the Group's individually immaterial joint ventures amounted to \$94,713 and \$100,160, respectively.

	<u>2022</u>	<u>2021</u>
(Loss) profit for the year from continuing operations	(\$ 5,447)	\$ 280
Other comprehensive income, net of tax	-	-
Total comprehensive (loss) income	<u>(\$ 5,447)</u>	<u>\$ 280</u>

(8) Property, plant and equipment

	Land	Land improvements	Buildings and structures	Machinery and equipment	Transportation equipment	Leasehold improvements	Other equipment	Construction in progress and equipment to be inspected	Total
<u>At January 1, 2022</u>									
Cost	\$ 3,018,294	\$ 243,735	\$ 4,317,427	\$ 4,256,052	\$ 430,389	\$ 1,020,888	\$ 1,190,493	\$ 3,310,643	\$ 17,787,921

- A. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation are as follows:

	<u>2022</u>	<u>2021</u>
Amount capitalised	\$ 20,250	\$ 18,758
Interest rate range	0.5%~1.83%	0.46%~1.40%

- B. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

- C. As of December 31, 2022 and 2021, the Group held 205 parcels and 207 parcels of agricultural land, respectively. The carrying amounts of land registered under the title of others amounted to \$1,100,676 and \$1,055,111, respectively. The titles of these parcels of land are registered under the title of individuals, however, the Group has agreements with those individuals to pledge these agricultural land to the Group.

(9) Leasing arrangements - lessee

- A. The Group leases various assets including land, buildings, business vehicles, and other equipment. Rental contracts are typically made for periods of 1 to 22 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
	<u>Carrying amount</u>	<u>Carrying amount</u>
Land	\$ 292,683	\$ 299,768
Buildings	39,622	35,331
Transportation equipment (Cargo truck)	18,527	25,472
Other equipment	15,930	10,909
	<u>\$ 366,762</u>	<u>\$ 371,480</u>
	<u>2022</u>	<u>2021</u>
	<u>Depreciation charge</u>	<u>Depreciation charge</u>
Land	\$ 30,249	\$ 27,608
Buildings	13,468	10,026
Transportation equipment (Cargo truck)	6,944	6,037
Other equipment	8,333	6,802
	<u>\$ 58,994</u>	<u>\$ 50,473</u>

- C. For the years ended December 31, 2022 and 2021, the additions to right-of-use assets were \$57,429 and \$76,038, respectively.

- D. The Group has no significant profit or loss in relation to lease contracts for the years ended December 31, 2022 and 2021.

E. For the years ended December 31, 2022 and 2021, the Group's total cash outflow for leases were \$54,840 and \$51,953, respectively.

(10) Intangible assets

	<u>2022</u>	<u>2021</u>
Software		
At January 1		
Cost	\$ 14,740	\$ 10,651
Accumulated amortisation and impairment	(11,210)	(10,477)
	<u>\$ 3,530</u>	<u>\$ 174</u>
At January 1	\$ 3,530	\$ 174
Additions	1,151	4,089
Amortisation	(1,526)	(733)
At December 31	<u>\$ 3,155</u>	<u>\$ 3,530</u>
At December 31

Unsecured credit loans	2017.09.06~2028.09.29	0.79%-1.35%	5,490,000
			7,369,500
Less: Current portion			(239,750)
			<u>\$ 7,129,750</u>

Information on collaterals pledged for long-term borrowings is provided in Note 8.

(15) Pensions

A. Defined benefit plans

- (a) The Company and its domestic subsidiaries have defined benefit pension plans in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit plans, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to specific percentage of the employees' monthly salaries and wages to the retirement fund deposited with the Bank of Taiwan, the trustee, under the name of the independent retirement fund

committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balances are insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Present value of defined benefit obligations	(\$ 355,284)	(\$ 399,078)
Fair value of plan assets	<u>315,576</u>	<u>295,821</u>
Net defined benefit liability	<u>(\$ 39,708)</u>	<u>(\$ 103,257)</u>

(c) Movements in net defined benefit liabilities are as follows:

	<u>Present value of defined benefit obligations</u>	<u>Fair value of plan assets</u>	<u>Net defined benefit liability</u>
2022			
Balance at January 1	(\$ 399,078)	\$ 295,821	(\$ 103,257)

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labour Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2022 and 2021 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	<u>2022</u>	<u>2021</u>
Discount rate	1.25%	0.65%
Future salary increases	2.00%	2.00%

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	<u>Discount rate</u>		<u>Future salary increases</u>	
	<u>Increase 1%</u>	<u>Decrease 1%</u>	<u>Increase 1%</u>	<u>Decrease 1%</u>
<u>2022</u>				
Effect on present value of defined benefit obligation	(\$ <u>23,410</u>)	<u>\$ 26,226</u>	\$ <u>25,754</u>	(\$ <u>23,465</u>)
<u>2021</u>				
Effect on present value of defined benefit obligation	(\$ <u>28,107</u>)	<u>\$ 31,712</u>	\$ <u>30,944</u>	(\$ <u>28,015</u>)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(f) Expected contributions to the defined benefit pension plans of the Company and domestic subsidiaries for the year ending December 31, 2023 amount to \$15,846.

(g) As of December 31, 2022, the weighted average duration of the retirement plan is 4~8 years.

B. Defined contribution plans

Effective July 1, 2005, the Company and its domestic subsidiaries have established defined contribution pension plans (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees’ monthly

salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs for the aforementioned defined contribution pension plans of the Group for the years ended December 31, 2022 and 2021 were \$57,580 and \$56,639, respectively.

(16) Share capital - common stock

A. As of December 31, 2022, the Company's authorised capital was \$3,579,000, consisting of 357,900 thousand shares of common stock, and the paid-in capital was \$2,947,901, consisting of 294,791 thousand shares of common stock with a par value of \$10 (in dollars) per share. All proceeds from shares issuance have been collected. Movements in the number of the Company's ordinary shares outstanding are as follows:(in thousands shares)

	2022	2021
At January 1	2,679,910	2,679,910
Shareholders' stock dividends	267,991	-
At December 31	<u>2,947,901</u>	<u>2,679,910</u>

B. A resolution was passed during the Shareholders' meeting held on June 23, 2022, for the undistributed surplus used in the issuance of 26,799 thousand ordinary shares, with par value of \$10 per share amounting to \$267,991. The resolution was approved by the Financial Supervisory Commission. The shares were issued on August 31, 2022 after the chairman was authorised by the board of directors on August 8 , 2022. The total issued shares amounted to \$2,947,901 after the completion of capital increase, consisting of 294,790 thousand shares.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(18) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. A special reserve is set aside or reversed in accordance with related laws or regulations by the Competent Authority. The remainder, if any, along with the accumulated unappropriated earnings in prior years, shall be distributed as shareholders' bonus as resolved by the shareholders. Cash dividends to shareholders shall

account for at least 10% of the total dividends distributed to shareholders. If cash dividend is lower than \$0.1 (in dollars) per share, dividends are distributed using share dividends.

The Board of Directors of the Company may, upon resolution adopted by a majority vote at its meeting attended by two-thirds of the total number of directors, distribute dividends and bonus, or legal reserve and capital surplus, in whole or in part, in accordance with Paragraph 1 of Article 241 of the Company Act in the form of cash, which shall also be reported at the shareholders' meeting, while the proposal for appropriation shall be approved by the shareholders if dividends will be distributed by issuing new shares.

- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. The appropriations of earnings for 2021 and 2020 have been resolved at the shareholders' meeting on June 23, 2022 and June 21, 2021, respectively, as follows:

	2021		2020	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	\$ 137,043		\$ 164,389	
Cash dividends	803,973	\$ 3.00	1,205,959	\$ 4.50
Stock dividends	267,991	1.00		

The effective dates for the above distribution of cash dividends were June 23, 2022 and June 21, 2021, respectively. The ex-rights effective date for stock dividends was set on August 31, 2022.

- E. For the year ended December 31, 2022, dividends distributed to the owners amounted to \$1,071,964 (\$4 dollars per share). On June 23, 2022, the stockholders during their meeting resolved to distribute cash dividends and stock dividends from the 2021 earnings at \$3 and \$1 per share (amounting to 26,799 thousand shares), respectively, and the total dividends amounted to \$1,071,964. The effective date for the above distribution of cash dividends was July 11, 2022, and the effective date for the distribution of stock dividends was August 31, 2022.

(19) Operating revenue

	<u>2022</u>	<u>2021</u>
Revenue from contracts with customers	\$ 28,959,220	\$ 24,841,345

A. Disaggregation of revenue from contracts with customers

The Group derives revenue from the transfer of goods at a point in time in the following geographical regions:

	<u>2022</u>	<u>2021</u>
Total segment revenue	\$ 29,628,166	\$ 25,455,436
Inter-segment revenue	(668,946)	(614,091)
Revenue from external customer contracts	<u>\$ 28,959,220</u>	<u>\$ 24,841,345</u>
Timing of revenue recognition		
At a point in time	<u>\$ 28,959,220</u>	<u>\$ 24,841,345</u>

B. Contract liabilities

The Group has recognised the following revenue-related contract liabilities:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Contract liabilities:		
Contract liabilities - advance receipts	<u>\$ 75</u>	<u>\$ 159</u>

C. Information on revenue categorised by nature is provided in Note 14(2).

(20) Other income and expenses, net

Other income and expenses, net are gains (losses) on changes in fair value less costs to sell of biological assets.

	<u>2022</u>	<u>2021</u>
Other income and expenses, net	\$ 21,509	(\$ 12,738)

	<u>\$ 2,141,173</u>	<u>\$ 891,966</u>	<u>\$ 3,033,139</u>

(26) Employee benefit expense

	2022		
	Operating cost	Operating expenses	Total
Wages and salaries	\$ 1,196,072	\$ 768,847	\$ 1,964,919
Labor and health insurance	130,723	48,309	179,032
Pension costs	37,474	22,389	59,863
Other personnel expenses	65,255	14,083	79,338
	<u>\$ 1,429,524</u>	<u>\$ 853,628</u>	<u>\$ 2,283,152</u>

	2021		
	Operating cost	Operating expenses	Total
Wages and salaries	\$ 1,187,334	\$ 725,954	\$ 1,913,288
Labor and health insurance	129,360	47,550	176,910
Pension costs	37,478	21,888	59,366
Other personnel expenses	67,418	8,737	76,155
	<u>\$ 1,421,590</u>	<u>\$ 804,129</u>	<u>\$ 2,225,719</u>

Other personnel expenses include meal allowance, training expenses and employee benefits.

- A. According to the Articles of Incorporation of the Company, an amount equal to at least 1% of the Company's distributable profit of the current year should be appropriated as employees' compensation expense. If the Company has an accumulated deficit, earnings should be reserved to cover the accumulated losses in advance.
- B. For the years ended December 31, 2022 and 2021, employees' compensation was accrued at \$19,058 and \$17,194, respectively. The aforementioned amounts were recognised in wages and salaries expense.

For the year ended December 31, 2022, the employees' compensation was estimated and accrued based on 1% (as prescribed by the Company's Articles of Incorporation) of distributable profit of current year as of the end of reporting period.

For 2021, the difference of \$36 between employees' compensation of \$17,158 resolved by the Board of Directors and the amount of \$17,194 recognised in the 2021 financial statements, mainly resulting from a variance in estimation, had been adjusted in profit or loss for 2022.

- C. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(27) Income tax

A. Income tax expense

(a) Components of income tax expense:

	<u>2022</u>	<u>2021</u>
Current tax:		
Current tax on profits for the year	\$ 402,140	\$ 356,504
Tax on undistributed surplus earnings	8,072	13,677
Prior year income tax (over) underestimation	(14,185)	(15,023)
Separate taxation (Repatriated Offshore Funds)	(6,624)	(3,617)
Total current tax	<u>389,403</u>	<u>351,541</u>
Deferred tax:		
Origination and reversal of temporary differences	(11,334)	(20,448)
Total deferred tax	(11,334)	(20,448)
Income tax expense	<u>\$ 378,069</u>	<u>\$ 331,093</u>

(b) The income tax relating to components of other comprehensive income is as follows:

	<u>2022</u>	<u>2021</u>
Changes in fair value of financial assets at fair value through other comprehensive income	<u>\$ 6,220</u>	<u>(\$ 11,591)</u>
Remeasurement of defined benefit obligations	<u>\$ 8,795</u>	<u>\$ 3,941</u>

B. Reconciliation between income tax expense and accounting profit

	<u>2022</u>	<u>2021</u>
Tax calculated based on profit before tax and statutory tax rate (Note)	\$ 381,893	\$ 322,501
Tax exempt income by tax regulation/ Expenses disallowed by tax regulation	8,913	13,555
Tax on undistributed surplus earnings	8,072	13,677
Prior year income tax (over) underestimation	(14,185)	(15,023)
Separate taxation (Repatriated Offshore Funds)	(6,624)	(3,617)
Income tax expense	<u>\$ 378,069</u>	<u>\$ 331,093</u>

Note: The basis of applicable tax rate was calculated by using the tax rate of Taiwan (20%).

C. (a) Amounts of deferred tax assets or liabilities as a result of temporary differences and tax losses are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Temporary differences:		
Accrued sales discounts	\$ 27,102	\$ 20,698
Provision for loss on spare parts	4,441	3,962
Pension expense in excess of the limit for tax purpose	7,942	20,651
Provision for inventory valuation loss and change in fair value of biological assets (9,957) (5,319)
Unrealised foreign investment income (25,053) (18,374)
Unrealised exchange gain (1,172) (326)
Loss carryforward	76,447	57,494
Changes in fair value of financial assets at fair value through other comprehensive income	5,371	11,591
Others	2,440	865
	<u>\$ 87,561</u>	<u>\$ 91,242</u>

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Deferred tax assets	\$ 130,607	\$ 121,044
Deferred tax liabilities	(43,046)	(29,802)
	<u>\$ 87,561</u>	<u>\$ 91,242</u>

(b) Amounts recognised in profit or loss and in other comprehensive income as a result of temporary differences and tax losses are as follows:

	<u>2022</u>	<u>2021</u>
Recognised in profit or loss	\$ 11,334	\$ 20,448
Recognised in other comprehensive income	(\$ 15,015)	\$ 7,650

D. Expiration dates of unused tax losses and amounts of unrecognised deferred tax assets of the Company and its subsidiaries - Rui Fu Foods Co., Ltd., Rui Mu Foods Co., Ltd. and Sheng Da Foods Co., Ltd. are as follows:

December 31, 2022				
<u>Year incurred</u>	<u>Amount filed/ assessed</u>	<u>Unused amount</u>	<u>Unrecognised deferred tax assets</u>	<u>Expiry year</u>
2017	\$ 14,351	\$ 3,124	\$ -	2027
2019	25,527	25,527	-	2029
2020	106,681	106,681	-	2030
2021	152,136	152,136	-	2031
2022	94,768	94,768	-	2032
	<u>\$ 393,463</u>	<u>\$ 382,236</u>	<u>\$ -</u>	

December 31, 2021				
<u>Year incurred</u>	<u>Amount filed/ assessed</u>	<u>Unused amount</u>	<u>Unrecognised deferred tax assets</u>	<u>Expiry year</u>
2017	\$ 14,351	\$ 3,124	\$ -	2027
2019	25,527	25,527	-	2029
2020	106,681	106,681	-	2030
2021	152,136	152,136	-	2031
	<u>\$ 298,695</u>	<u>\$ 287,468</u>	<u>\$ -</u>	

E. The income tax returns through 2020 of the Company and the subsidiaries - Charoen Pokphand (Taiwan) Corp., Ltd., Arbor Acres Taiwan Co., Ltd., Rui Mu Foods Co., Ltd., Rui Fu Foods Co., Ltd. and Sheng Da Foods Co., Ltd. have been assessed and approved by the Tax Authority.

(3) Significant related party transactions and balances

A. Operating revenue

	<u>2022</u>	<u>2021</u>
Sales of goods:		
Other related parties	\$ 382,839	\$ 403,608

Goods are sold based on the price lists in force and terms that would be available to third parties.

B. Purchases

	<u>2022</u>	<u>2021</u>
Purchases of goods:		
Ultimate parent company	\$ 92,558	\$ 41,593
Other related parties	212,204	202,482
	<u>\$ 304,762</u>	<u>\$ 244,075</u>

Goods are purchased from related parties on normal commercial terms and conditions.

C. Receivables from related parties

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes and accounts receivable:		
Other related parties	\$ 68,927	\$ 59,658
Other receivables:		
Other related parties	228	-
	<u>\$ 69,155</u>	<u>\$ 59,658</u>

The receivables from related parties arise mainly from sale transactions. The receivables are unsecured in nature and bear no interest. No allowance for uncollectible accounts was provided for receivables from related parties.

D. Payables to related parties

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes and accounts payable:		
Ultimate parent company	\$ -	\$ 3,115
Other related parties	32,574	29,451
Other payables:		
Other related parties	30,574	26,771
	<u>\$ 63,148</u>	<u>\$ 59,337</u>

The payables to related parties arise mainly from purchase transactions, The other payables to related parties arise mainly from technical service expenses, trademarks, the farm-member remuneration for joint collaboration for contractual breeding, freight and processing fees. The payables bear no interest.

F. Property transactions

Acquisition of property, plant and equipment

- (a) In December 2021, the Board of Directors of Sheng Da Foods Co., Ltd. resolved to acquire land, buildings and ancillary facilities from a related party for a consideration of \$88,999 (tax excluded) for the operational needs and expansion of production capacity. Further, it acquired related equipment from the related party for \$18,691 (tax included) for the year 2022. As of December 31, 2022, payment of \$14,214 was paid.
- (b) The Company purchased land and buildings from other related party for operational expansion amounting to \$68,660 as resolved by the Board of Directors in August 2022. As of December 31, 2022, the Company had paid \$48,000.

G. Rental income (shown as ‘Other income’)

	<u>2022</u>	<u>2021</u>
Rental income:		
Other related parties	<u>\$ 722</u>	<u>\$ 722</u>

The rental receivables are collected annually or monthly based on the contracts.

H. Leasing arrangements – lessee

- (a) The Company’s subsidiaries lease farm buildings and equipment from other related parties.
- (b) For the years ended December 31, 2022 and 2021, the Group recognised rent expense amounting to \$9,000 and \$18,000, respectively. As of December 31, 2022, the remaining balance has been fully paid.

I. Joint contractual breeding

- (a) The Company’s subsidiaries signed the joint contractual breeding agreements with other related parties to provide techniques for the husbandry management of layers, as well as farm buildings and equipment for the breeding.
- (b) For the years ended December 31, 2022 and 2021, the farm-member remuneration for joint collaboration for contractual breeding recognised amounted to \$35,765 and \$39,950, respectively.

J. Technical service agreement

- (a) The Company signed a technical service agreement with CPG since 1996. CPG helps the Company to manufacture feeds, raise animals and to process meat products, and the Company pays compensation of THB12 million (net value) for the services annually. The commitment shall not be terminated except when any of the two parties would agree to end the agreement. For the years ended December 31, 2022 and 2021, the Company recognised technical service expenses amounting to \$10,840 and \$11,392, respectively.

(b) The Company signed a technical service agreement with CPG at the end of 2015. CPG helps the Company to raise animals and provides consulting services of related technical skills, and the Company pays compensation of \$700 for the services monthly. The contract is effective for 5 years. The contract term was extended to five years effective from the end of 2020. For the years ended December 31, 2022 and 2021, the Company recognised technical service expense amounting to \$8,400 and 8,400, respectively.

K. Trademark licensing agreement

The Company signed a trademark license agreement with CPG at the end of 2015. The contract authorises the Company to use ‘CP’ as trademark in the designated area (Republic of China). Royalties are paid monthly based on 1.5% of the net amount of sales. The contract is effective for 5 years. The contract term was extended to five years effective from the end of 2020. For the years ended December 31, 2022 and 2021, the Company recognised royalties amounting to \$92,361 and \$82,709, respectively.

(4) Key management compensation

	2022	2021
Salaries and other short-term employee benefits	\$ 194,056	\$ 195,503
Post-employment benefits	1,544	1,661
Total	<u>\$ 195,600</u>	<u>\$ 197,164</u>

8. PLEDGED ASSETS

The Group’s assets pledged as collateral are as follows:

Pledged assets	Book value		Purpose
	December 31, 2022	December 31, 2021	
Time deposits (shown as ‘Other current assets’)	\$ 9,650	\$ 9,650	Guarantee deposit
Property, plant and equipment			
Land	1,135,305	1,069,003	Long-term borrowings
Buildings and structures	872,595	221,276	Long-term borrowings
Machinery and equipment	523,066	-	Long-term borrowings
Construction in progress	474,614	1,192,933	Long-term borrowings
	<u>\$ 3,015,230</u>	<u>\$ 2,492,862</u>	

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

(1) Contingencies

The Group subsequently invested to establish chicken farms in Hualien County starting from 2018, and had submitted an application to the Hualien County Government for approval based on the

Group's building and feeding project. However, the Hualien County Government issued a letter on July 10, 2020 to terminate the Group's application for the building of farming facilities on agricultural land without taking into consideration the measures and goodwill that the Group took in order to reach consensus with local residents and resolve controversy. The Group has appointed lawyers and filed an appeal as administrative remedy. For the administrative appeal filed against the administrative action concerning the revocation of the permission letter to use the land in dispute, the Council of Agriculture of Executive Yuan revoked the aforesaid administrative action in accordance with the Appeal Resolution Letter Order No. Nong-Su-Zi-1090727273, dated January 12, 2021. On July 26, 2021, the Hualien County Government sent another letter alleging that the Group did not obtain permission for agricultural use in accordance with the regulations and revoking the permission in accordance with Article 117 of the Administrative Procedures Act. The Group has appointed a lawyer to file an appeal. As for the administrative appeal filed against the administrative action concerning the disapproval Jingzhong Section, Shoufeng Township, Hualien County, the Council of Agriculture of Executive Yuan revoked the aforesaid administrative action in accordance with the Appeal Resolution Letter Order No. Nong-Su-Zi-1090721271, dated January 12, 2021, and requested the Hualien County Government to take other legitimate actions. As of December 31, 2022, the related costs incurred by the Group amounted to \$71,281, excluding the cost of land.

(2) Commitments

- A. As of December 31, 2022 and 2021, the Group had opened unused letters of credit for purchases of raw materials and machinery of \$508,723 and \$1,226,945, respectively.
- B. As of December 31, 2022 and 2021, the Group had several outstanding construction contracts and equipment purchase agreements amounting to \$1,183,985 and \$740,967, respectively, which will be paid based on the percentage of completion.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

In December 2021, the board of directors of the subsidiary, Sheng Da Foods Co., Ltd., resolved to increase the subsidiary's capital amounting to \$60,000,000, consisting of 6,000,000 ordinary shares at a par value of NT\$10 per share. The Company's subsidiary, Riu Mu Foods Co., Ltd., subscribed to the capital increase thereby increasing its shareholding ratio from 75% to 81.82%. The change in registration has been completed.

12. OTHERS

(1) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

(2) Financial risk of financial instruments

- A. Financial instruments by category

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
<u>Financial assets</u>		
Financial assets measured at fair value through other comprehensive income		
Designation of equity instrument	\$ 2,659,785	\$ 2,575,015
Financial assets at amortised cost		
Cash and cash equivalents	311,085	187,008
Notes receivable (including related parties)	413,990	419,983
Accounts receivable (including related parties)	2,797,045	2,426,548
Other receivables (including related parties)	54,605	18,665
Refundable deposits	41,461	43,408
Other financial assets - current	9,650	9,650
	<u>\$ 6,287,621</u>	<u>\$ 5,680,277</u>

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
<u>Financial liabilities</u>		
Financial liabilities at fair value through profit or loss		
Financial liabilities designated as at fair value through profit or loss on initial recognition	\$ 11,791	\$ -
Financial liabilities at amortised cost		
Short-term borrowings	4,265,097	3,301,031
Short-term notes and bills payable	987,963	1,039,203
Notes payable (including related parties)	694,856	515,448
Accounts payable (including related parties)	1,021,273	872,393
Other payables (including related parties)	925,952	837,678
Long-term borrowings (including current portion)	8,343,260	7,369,500
	<u>\$ 16,250,192</u>	<u>\$ 13,935,253</u>
Lease liability	<u>\$ 344,417</u>	<u>\$ 345,182</u>

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units.

C. Financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD, HKD, CNY, THB, EUR, SGD and JPY. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- ii. Management has set up a policy to require the group to manage their foreign exchange risk against their functional currency.
- iii. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.
- iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: CNY and HKD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2022		
	Foreign currency amount (in thousands)	Exchange rate	Book value (NTD)
(Foreign currency : functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	USD	40	30.66 \$ 1,231
USD:HKD	USD	1,209	7.80 37,015
CNY:HKD	CNY	685	1.13 3,045
<u>Non-monetary items</u>			
THB:HKD	THB	1,904,640	0.23 \$ 1,687,093
THB:NTD	THB	1,098,216	0.89 972,692
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD:NTD	USD	18,764	30.76 \$ 577,166
EUR:NTD	EUR	106	32.92 3,487
SGD:NTD	SGD	16	22.97 368
JPY:NTD	JPY	750	0.23 176

December 31, 2021				
	Foreign currency amount		Exchange rate	Book value (NTD)
	(in thousands)			
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD:NTD	USD	12	27.63	\$ 319
THB:NTD	THB	48	0.81	39
USD:HKD	USD	111	7.80	3,071
CNY:HKD	CNY	685	1.23	2,987
<u>Non-monetary items</u>				
THB:HKD	THB	1,958,400	0.23	\$ 1,633,426
THB:NTD	THB	1,129,214	0.83	941,589
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD:NTD	USD	11,686	27.73	\$ 324,040
SGD:NTD	SGD	66	20.55	1,356
JPY:NTD	JPY	5,085	0.24	1,233
EUR:NTD	EUR	262	31.52	8,261

Note: The functional currency of certain subsidiaries belonging to the Group is HKD. Thus, this information has to be considered when reporting.

- v. Total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2022 and 2021 amounted to (\$40,473) and \$31,326, respectively.
- vi. Analysis of foreign currency market risk arising from significant foreign exchange variation:

		2022		
		Sensitivity analysis		
		Degree of variation	Effect on profit or loss	Effect on other comprehensive income
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD : NTD	1%	\$	12	\$ -
USD : HKD	1%		370	-
CNY : HKD	1%		30	-
<u>Non-monetary items</u>				
THB : HKD	1%	\$	-	\$ 16,871
THB : NTD	1%		-	9,727
<u>Financial liabilities</u>

JPY : NTD	1%	(12)	-
EUR : NTD	1%	(83)	-

Price risk

- i. The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet as financial assets at fair value through other comprehensive income. Refer to Note 6(2).
- ii. For the Group's strategies for biological assets price risk, Refer to Note 6(6).
- iii. The Group's investment in equity securities comprise foreign listed stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other equity for the years ended December 31, 2022 and 2021 would have increased/decreased by \$24,652 and \$23,867, respectively, as a result of post-tax gains/losses on equity securities classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During the years ended December 31, 2022 and 2021, the Group's borrowings at variable rate were denominated in NTD.
- ii. The Group analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the Group calculates the impact on profit and loss of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies. The scenarios run only for liabilities that represent the major interest-bearing positions.
- iii. For the years ended December 31, 2022 and 2021, if interest rates on NTD-denominated borrowings at that date had been 1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2022 and 2021, would have been \$66,746 and \$58,956 lower/higher, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is the contract cash flows when counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group manages its credit risk taking into consideration the entire group's concern. According to the Group's credit policy, each local entity in the Group is responsible for

managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. Based on the Group's historical experience, if the contract payments were past due over 17 days, there has been a significant increase in credit risk on that instrument since initial recognition. As a result, the Group should strengthen controls and make follow-up procedures.
- iv. The Group pays attention on specific customers whose payments were past due to confirm the debts and recognises the allowance for bad debts when there is a concern about default based on the assessment of customers' credit risk.
- v. The Group classifies credit risks from customers' non-performance in accordance with customer types. The Group applies the simplified approach using loss rate methodology to estimate expected credit loss impairment under the provision matrix basis.
- vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights. For the years ended December 31, 2022 and 2021, the Group's written-off financial assets that are still under recourse procedures and recovered amounted to \$7,699 and \$1,645, respectively.
- vii. The Group used the forecastability of the global economy to adjust historical and timely information to assess the default possibility of accounts receivable in accordance with customers' credit. As of December 31, 2022 and 2021, the expected loss rate is as follows:

	<u>Current</u>	<u>Up to 120 days</u>	<u>121-365 days</u>	<u>Over one year</u>	<u>Total</u>
<u>December 31, 2022</u>					
Expected loss rate	0.05%~0.22%	1.5%~100%	100%	100%	
Total book value	\$ 2,977,390	\$ 170,223	\$ 180	\$ 2,702	\$ 3,150,495
Loss allowance	1,591	3,914	180	2,702	8,387
<u>December 31, 2021</u>					
Expected loss rate	0.05%~0.43%	1.50%~100%	100%	100%	
Total book value	\$ 2,618,159	\$ 174,857	\$ 840	\$ 9,179	\$ 2,803,035
Loss allowance	1,841	4,302	840	9,179	16,162

- viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for notes and accounts receivable are as follows:

	<u>2022</u>
	Notes and accounts receivable (including related parties)
At January 1	\$ 16,162
Reversal of impairment loss	(7,390)
Write-offs	(385)
At December 31	<u>\$ 8,387</u>
	<u>2021</u>
	Notes and accounts receivable (including related parties)
At January 1	\$ 7,228
Provision for impairment loss	9,006
Write-offs	(72)
At December 31	<u>\$ 16,162</u>

The reversal of and provision for impairment loss arising from customers' contracts for the years ended December 31, 2022 and 2021 amounted to \$7,390 and \$9,006, respectively.

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Group's financial ratio targets, covenant compliance and applicable external regulatory or legal requirements.
- ii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities

December 31, 2022	<u>Less than 1 year</u>	<u>Between 1 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 4,265,097	\$ -	\$ -
Short-term notes and bills payable	990,000	-	-
Notes payable (including related parties)	694,856	-	-
Accounts payable (including related parties)	1,021,273	-	-
Other payables (including related parties)	925,952	-	-
Lease liabilities	38,500	156,246	173,115
Long-term borrowings (including current portion)	831,251	6,681,090	1,171,169

Non-derivative financial liabilities

December 31, 2021	<u>Less than 1 year</u>	<u>Between 1 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 3,301,031	\$ -	\$ -
Short-term notes and bills payable	1,040,000	-	-
Notes payable (including related parties)	515,448	-	-
Accounts payable (including related parties)	872,393	-	-
Other payables (including related parties)	837,678	-	-
Lease liabilities	33,694	151,439	185,464
Long-term borrowings (including current portion)	312,743	6,066,963	1,201,453

iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12(2) A.
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in derivative instruments and biological assets is included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

C. The related information on financial and non-financial instruments measured at fair value by level based on the nature, characteristics and risks of the assets and liabilities is as follows:

<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Biological assets				
Financial assets at fair value through other comprehensive income:				
Equity securities	\$ <u>2,659,785</u>	\$ <u>1,231,923</u>	\$ <u>-</u>	\$ <u>1,231,923</u>
Financial liabilities at fair value through profit or loss:				
Derivative instruments	\$ <u>-</u>	\$ <u>11,791</u>	\$ <u>-</u>	\$ <u>11,791</u>
<u>December 31, 2021</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Biological assets	\$ <u>-</u>	\$ <u>974,696</u>	\$ <u>-</u>	\$ <u>974,696</u>
Financial assets at fair value through other comprehensive income:				
Equity securities	\$ <u>2,575,015</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>2,575,015</u>

D. The methods and assumptions of the Group used to measure fair value are as follows:

- The instruments the Group used quoted market prices as their fair values (that is, Level 1) are listed stocks, whose quoted market prices are based on the closing prices which are classified as financial assets at fair value through other comprehensive income.
- The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- Details of methods for measuring Level 2 - Biological assets are provided in Note 6(6).

E. For the years ended December 31, 2022 and 2021, there was no transfer between Level 1 and Level 2.

F. For the years ended December 31, 2022 and 2021, there was no transfer into or out from Level 3.

(4) Other matter

The Group was able to maintain its normal operations during the Covid-19 outbreak and has implemented several preventive measures imposed by the government. The Group assessed that the pandemic has no significant impact on the Group's ability to continue as a going concern, assets impairment and financing risks.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

A. Loans to others: None.

B. Provision of endorsements and guarantees to others during the year ended December 31, 2022: None.

C. Holding of marketable securities at December 31, 2022 (not including subsidiaries, associates and joint ventures):

Securities held by	Marketable securities		Relationship with the securities issuer	General ledger account	As of December 31, 2022				Footnote
	Types	Name			Number of shares	Book value	Ownership	Fair value (Note 1)	
The Company	Common share	CHAROEN POKPHAND FOODS PUBLIC COMPANY LIMITED	(Note 2)	Financial assets at fair value through other comprehensive income	44,282,900	\$ 972,692	0.51%	\$ 972,692	
Plenty Type Limited (Cayman Islands)	Common share	CHAROEN POKPHAND FOODS PUBLIC COMPANY LIMITED	(Note 2)	Financial assets at fair value through other comprehensive income	76,800,000	1,687,093	0.89%	1,687,093	

Note 1: The numbers filled in for market value are as follows:

(1) Where there is a quoted market price, the fair value is based on the closing price at the balance sheet date, the fair value of open-end funds is based on the net asset value at the balance sheet date.

(2) Where there is no quoted market price, this column is filled in with the book value per share for stocks or left blank for other instruments.

Note 2: Investee company accounted for as financial assets at fair value through other comprehensive income by the Company and Plenty Type Limited (Cayman Islands), which is ultimate parent entity of the Company

D. Acquisition or sale of the same security with the accumulated cost exceeding NT\$300,000 or 20% of the Company's paid-in capital during the year ended December 31, 2022: None.

E. Acquisition of real estate reaching NT\$300,000 or 20% of paid-in capital or more during the year ended December 31, 2022: None.

F. Disposal of real estate reaching NT\$300,000 or 20% of paid-in capital or more during the year ended December 31, 2022: None.

G. Purchases or sales of goods from or to related parties reaching NT\$100,000 or 20% of paid-in capital or more during the year ended December 31, 2022:

Purchaser/seller	Counterparty	Relationship with the counterparty	Transaction			Differences in transaction terms compared to transactions			Notes/accounts receivable (payable)		Footnote
			Purchases (sales)	Amount	Percentage of total purchases (sales)	Credit term	Unit price	Credit term	Balance	Percentage of total notes/accounts receivable (payable)	
The Company	Rui Fu Foods Co., Ltd.	Subsidiary	Sales revenue	\$215,234	0.74%	60 days	The same as general transactions	None	\$ 45,097	1.40%	
The Company	Rui Mu Foods Co., Ltd.	Subsidiary	Sales revenue	119,383	0.41%	180 days	The same as general transactions	None	29,970	0.93%	
The Company	Arbor Acres Taiwan Co., Ltd.	Subsidiary	Purchases	110,516	0.49%	105 days	The same as general transactions	None	9,529	0.56%	

H. Receivables from related parties reaching NT\$100,000 or 20% of paid-in capital or more as at December 31, 2022: None.

I. Trading in derivative instruments undertaken during the year ended December 31, 2022: Refer to Note 6(2).

J. Significant inter-company transactions during the year ended December 31, 2022: The inter-company transactions below 1% of consolidated assets or revenue are not disclosed.

(2) Information on investees

14. OPERATING SEGMENT INFORMATION

(1) General information

Management has determined the reportable operating segments based on the reports reviewed by the Chief Operating Decision-Maker that are used to make strategic decision.

The Group's Chief Operating Decision-Maker considers the business from a product type perspective. The main activities of the Group are feeds business, meat processing business, food processing business, management of importing and exporting animal medicine and husbandry business. The reportable segments are as follows:

- A. Feeds business: Manufacture and sale of animal feeds and wholesale of commodity;
- B. Meat processing business;
- C. Food processing business; and
- D. Husbandry business: Husbandry management of chickens to produce eggs and meat.

There is no material change in the basis for formation of entities and division of segments in the Group or in the measurement basis for segment information in this year.

(2) Measurement of segment information

The Chief Operating Decision-Maker evaluates the performance of the operating segments based on revenue and a measure of profit before income tax. This measurement basis excludes the effects of non-recurring expenditure from the operating segments such as goodwill impairment. The measurement also excludes the effects of unrealised gains/losses on financial instruments, interest expense and foreign exchange gain or loss, since the action are managed by central management department, operating department are not included.

(3) Segment information

The segment information provided to the Chief Operating Decision-Maker for the reportable segments is as follows:

	2022					
	Feeds	Meat processing	Food processing	Husbandry	Others	Total
Revenues from third parties	\$ 15,539,912	\$ 6,555,291	\$ 4,418,999	\$ 2,352,187	\$ 92,831	\$ 28,959,220
Revenues from the Group	367,307	54,991	892	185,207	60,549	668,946
Total segment revenue	<u>\$ 15,907,219</u>	<u>\$ 6,610,282</u>	<u>\$ 4,419,891</u>	<u>\$ 2,537,394</u>	<u>\$ 153,380</u>	<u>\$ 29,628,166</u>
Segment income (loss)	<u>\$ 1,312,756</u>	<u>\$ 717,503</u>	<u>\$ 202,335</u>	<u>(\$ 12,763)</u>	<u>(\$ 104,601)</u>	<u>\$ 2,115,230</u>

	2021					
	Feeds	Meat processing	Food processing	Husbandry	Others	Total
Revenues from third parties	\$ 13,305,798	\$ 5,583,139	\$ 3,984,589	\$ 1,887,696	\$ 80,123	\$ 24,841,345
Revenues from the Group	392,908	43,840	953	120,901	55,489	614,091
Total segment revenue	<u>\$ 13,698,706</u>	<u>\$ 5,626,979</u>	<u>\$ 3,985,542</u>	<u>\$ 2,008,597</u>	<u>\$ 135,612</u>	<u>\$ 25,455,436</u>
Segment income (loss)	<u>\$ 1,520,830</u>	<u>\$ 209,751</u>	<u>\$ 176,534</u>	<u>(\$ 109,521)</u>	<u>(\$ 102,132)</u>	<u>\$ 1,695,462</u>

(4) Reconciliation for segment income (loss)

Sales between segments are carried out at arm's length. The operating revenue from external customers reported to the Chief Operating Decision-Maker is measured in a manner consistent with that in the statement of comprehensive income.

A reconciliation of reportable segment income to the income before tax from continuing operations for the years ended December 31, 2022 and 2021 is provided as follows:

	<u>2022</u>	<u>2021</u>
Reportable segment income	\$ 2,219,831	\$ 1,797,594
Other segment loss	(104,601)	(102,132)
Total segment	2,115,230	1,695,462
Interest expense	(147,433)	(82,038)
Foreign exchange (losses) gains, net	(40,473)	31,326
Gains on financial assets at fair value through profit or loss	919	-
Income before tax from continuing segment	<u>\$ 1,928,243</u>	<u>\$ 1,644,750</u>

(5) Information on products and services

Refer to Note 14(3) for the related information.

(6) Geographical information

Geographical information for the years ended December 31, 2022 and 2021 is as follows:

<u>2022</u>	<u>Taiwan</u>
Revenues from third parties	\$ 28,959,220
Revenues from the Group	668,946
Total revenue	<u>\$ 29,628,166</u>
Segment assets –non-current	<u>\$ 14,797,861</u>

<u>2021</u>	<u>Taiwan</u>
Revenues from third parties	\$ 24,841,345
Revenues from the Group	614,091
Total revenue	<u>\$ 25,455,436</u>
Segment assets –non-current	<u>\$ 13,413,485</u>

(7) Major customer information

For the years ended December 31, 2022 and 2021, the Group has no customers accounting for more than 10% of consolidated sales revenue. Therefore, no additional disclosure is required.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of Charoen Pokphand Enterprise (Taiwan) Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Charoen Pokphand Enterprise (Taiwan) Co., Ltd. (the "Company") as at December 31, 2022 and 2021, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the parent company only financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Company's 2022 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's 2022 parent company only financial statements are stated as

follows:

Evaluation of net realisable value of inventories

Description

Refer to Note 4(12) for accounting policies adopted for the valuation of inventories, Note 5(2) for uncertainty of accounting estimates and assumptions of valuation of inventories, and Note 6(5) for details of inventories. As at December 31, 2022, the carrying amount of inventories and allowance for inventory valuation losses amounted to NT\$2,447,937 thousand and NT\$5,000 thousand, respectively.

The main activities of the Company are the manufacturing and sales of animal feeds, fresh and processed meat products. As the market prices are affected by changes in macro-economic environment, there is a higher risk of inventory valuation losses. In addition, the evaluation of net realisable value of inventories is subject to management's judgement, and considering that feeds, fresh and processed meat products comprise most of the Company's inventories which is significant to the financial statements, the evaluation of net realisable value of inventories was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

1. Based on our understanding of the Company's operations and related industry, assessed the reasonableness of related policies and procedures applied to the net realisable value of inventories and ascertained the consistent application.
2. Obtained statements of net realisable value of inventories as at the balance sheet date, validated source data of merchandise prices and recalculated the provision for inventory valuation losses in order to confirm consistent application of respective procedures and policies.

Measurement of biological assets

Description

Refer to Note 4(14) for accounting policies adopted for biological assets, Note 5(2) for uncertainty of accounting estimates and assumptions in measuring fair value of biological assets, and Note 6(7) for details of biological assets. As at December 31, 2022, the carrying amount of biological assets amounted to NT\$2,345,044 thousand.

The Company's biological assets is mainly comprised of broiler chicken, breeder chicken, fattening swine and breeder swine, etc. Except when the fair value cannot be reliably measured, biological assets

are measured at fair value less costs to sell on initial recognition and at the end of each reporting period. As the market prices of fresh, processed meat, livestock and poultry are affected by animal epidemic and market demand in Taiwan, biological assets with active market prices have a higher risk of fluctuations in fair value. Since the amount of biological assets is significant to the financial statements and the methods adopted in measuring each category of biological assets, market prices applied and items accounted for as costs to sell are all subject to management's judgement and with high uncertainty, the measurement of biological assets was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

1. Based on our understanding of the Company's operations and related industry, assessed the reasonableness of related policies and procedures applied in measuring biological assets, and ascertained the consistent application.
2. As at the balance sheet date, ascertained that all the active market prices information are available and reliable for biological assets measured at fair value less costs to sell. Also, validated source data of active market prices and the reasonableness of the major components of costs to sell.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Lin, Yi-Fan

For and on Behalf of PricewaterhouseCoopers, Taiwan

March 13, 2023

Liao, Fu-Ming

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

CHAROEN POKPHAND ENTERPRISE (TAIWAN) CO., LTD.
NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2022 AND 2021

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

Charoen Pokphand Enterprise (Taiwan) Co., Ltd. (the “Company”) was incorporated on August 22, 1977 as a company limited by shares under the Statute for Investment by Overseas Chinese and the provisions of the Company Act of the Republic of China. The main activities of the Company are the manufacture and sales of animal feeds, livestock, chicken and processed meat products. The Company’s common stock has been traded on the Taiwan Stock Exchange since July 27, 1987. Charoen Pokphand Foods Public Company Limited (“CPF”), which was incorporated in Thailand, directly and indirectly holds 39% equity interest in the Company.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorised for issuance by the Board of Directors on March 13, 2023.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2022 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 3, ‘Reference to the conceptual framework’	January 1, 2022
Amendments to IAS 16, ‘Property, plant and equipment: proceeds before intended use’	January 1, 2022
Amendments to IAS 37, ‘Onerous contracts—cost of fulfilling a contract’	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
 - (d) Biological assets measured at fair value less costs to sell.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

- A. The parent company only financial statements are presented in New Taiwan dollars, which is the Company’s functional currency.
- B. Foreign currency transactions and balances
- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
 - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
 - (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their

translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

(4) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realised within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(6) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are

recognised and derecognised using trade date accounting.

- C. At initial recognition, the Company measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
 - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value.

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(8) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Company recognises the impairment provision for expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts

receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(10) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(12) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads allocated based on normal operating capacity. It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Investments accounted for using equity method / subsidiaries and joint ventures

- A. Subsidiaries and joint ventures are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Investments in subsidiaries and joint ventures are accounted for using equity method in these parent company only financial statements.
- B. In the case that a subsidiary or a joint venture issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the subsidiary or the joint venture but maintains significant influence on the subsidiary or the joint venture, then 'capital surplus' and 'investments accounted for using equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the subsidiary or the joint venture, in addition to the above adjustment, the amounts previously recognised in other comprehensive income in relation to the subsidiary or the joint venture are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- C. Unrealised gains on transactions between the Company and its subsidiaries or joint ventures are eliminated. The accounting policies of the subsidiaries or joint ventures have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- D. The Company's share of its subsidiaries' or joint ventures' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in a subsidiary or a joint venture equals or exceeds its interest in the subsidiary or the joint venture, the Company continues to recognise losses proportionate to its ownership.

E. Pursuant to the “Regulations Governing the Preparation of Financial Reports by Securities Issuers,” profit (loss) of the current period and other comprehensive income in the parent company only financial statements shall equal to the amount attributable to owners of the parent in the financial statements prepared with basis for consolidation. Owners’ equity in the parent company only financial statements shall equal to equity attributable to owners of the parent in the financial statements prepared with basis for consolidation.

(14) Biological assets

Biological assets are measured at their fair value less costs to sell. Except for the case where the fair value cannot be measured reliably, they are measured at its cost less accumulated depreciation and impairment losses. Gains or losses on changes in fair value less costs to sell are recognised in profit or loss.

(15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets’ residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets’ residual values and useful lives differ from previous estimates or the patterns of consumption of the assets’ future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, ‘Accounting Policies, Changes in Accounting Estimates and Errors’, from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Land improvements	3~30 years
Buildings and structures	3~60 years
Machinery and equipment	2~20 years
Transportation equipment	6 years
Leasehold improvements	3~20 years
Other equipment	3~20 years

(16) Leasing arrangements (lessee) - right-of-use assets / lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are fixed payments, less any lease incentives receivable.

The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability; and
 - (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(17) Intangible assets

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 years.

(18) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(19) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is measured over the period of the borrowings using the effective interest method.

(20) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes and accounts payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(21) Financial liabilities at fair value through profit or loss

A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges.

B. At initial recognition, the Company measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Company subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

(22) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(23) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plan, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior period. The liability recognised in the balance sheet in respect of defined benefit pension plan is the present value of the defined benefit

obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

- ii. Remeasurements arising on defined benefit plan are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(24) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Company's balance sheet. However, the deferred tax is accounted of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

(25) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(26) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(27) Revenue recognition

A. Sales of goods

- (a) The Company manufactures and sells animal feeds, cooked food, agricultural livestock products and related consumable food products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- (b) Revenue from sales of goods is recognised based on the price specified in the contract, net of the estimated volume discounts, sales discounts and allowances. Accumulated experience is used to estimate and provide for the volume discounts, sales discounts and allowances using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A deduction of accounts receivable is recognised for expected sales discounts and allowances payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are made with a credit term of 3 to 180 days, which is consistent with market practice.
- (c) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. The Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2022, the carrying amount of inventories was \$2,472,937.

B. Measurement of fair value of biological assets

Except when fair value cannot be reliably measured, biological assets should be measured at fair value less costs to sell on initial recognition and at the end of each reporting period. The Company has to identify whether the active market prices are available for each category of biological assets, to determine the relevance between the nature of biological assets and the chosen market, and to decide which major items should be accounted for as costs to sell. The Company then estimates the fair value less costs to sell based on the information mentioned above. Any fluctuations in market price and costs to sell could materially affect the carrying amount of biological assets.

As of December 31, 2022, the carrying amount of biological assets was \$2,345,044.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash on hand and revolving funds	\$ 9,905	\$ 8,434
Checking accounts	1,318	981
Demand deposits	111,555	117,063
Total	<u>\$ 122,778</u>	<u>\$ 126,478</u>

- A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. As of December 31, 2022 and 2021, the Company has restricted cash and cash equivalents pledged as collateral totalling \$9,650, classified as other current financial assets and shown as ‘other current assets’. Refer to Note 8 for details.

(2) Financial assets and liabilities at fair value through profit or loss

Items	December 31, 2022	December 31, 2021
Current items:		
Financial liabilities mandatorily measured at fair value through profit or loss		
Non-hedging derivatives		
Forward foreign exchange contracts	\$ 11,791	\$ -

- A. Amounts recognised in profit or loss in relation to financial assets and liabilities at fair value through profit or loss are listed below:

	2022	2021
Derivatives	\$ 919	\$ -

- B. The Company entered into contracts relating to derivative financial assets and financial liabilities which were not accounted for under hedge accounting. The information is listed below:

	December 31, 2022	
Current items:	Contract amount (notional principal) (in thousands)	Contract period
Forward foreign exchange contracts		
-Sell NTD buy USD	USD 2,000	2022.10.04~2023.01.03
-Sell NTD buy USD	USD 2,000	2022.11.14~2023.02.16
-Sell NTD buy USD	USD 2,000	2022.10.27~2023.02.03
-Sell NTD buy USD	USD 2,000	2022.11.09~2023.02.14
-Sell NTD buy USD	USD 1,000	2022.11.11~2023.02.15
-Sell NTD buy USD	USD 2,000	2022.10.04~2023.01.06
-Sell NTD buy USD	USD 2,000	2022.10.27~2023.02.03
-Sell NTD buy USD	USD 2,000	2022.11.11~2023.02.15

The Company entered into forward foreign exchange contracts to buy forward foreign exchange to hedge exchange rate risk of import proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

- C. The Company has no financial assets and financial liabilities at fair value through profit or loss pledged to others.

(3) Financial assets at fair value through other comprehensive income

Items	December 31, 2022	December 31, 2021
Non-current items:		
Equity instruments		
Listed stocks	\$ 999,544	\$ 999,544
Valuation adjustment	(26,852)	(57,955)
	\$ 972,692	\$ 941,589

A. Amounts recognised in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	2022	2021
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognised in other comprehensive income	\$ 31,103	(\$ 57,955)
Dividend income recognised in profit or loss held at end of year	\$ 24,463	\$ 14,712

B. The Company holds CPF's shares, which are traded on the Thailand Stock Exchange. CPF is the ultimate parent company of the Group.

C. The Company has elected to classify equity investments that are considered to be strategic investments and steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$972,692 and \$941,589 as at December 31, 2022 and 2021, respectively.

(4) Notes and accounts receivable

	December 31, 2022	December 31, 2021
Notes receivable	\$ 375,832	\$ 394,952
Accounts receivable	\$ 2,420,214	\$ 2,112,356
Less: Allowance for uncollectible accounts	(6,752)	(7,578)
	\$ 2,413,462	\$ 2,104,778

A. The aging analysis of accounts and notes receivable is as follows:

	December 31, 2022	December 31, 2021
Current	\$ 2,648,493	\$ 2,344,559
Up to 120 days	145,446	160,165
121 to 365 days	55	431
Over one year	2,052	2,153
	\$ 2,796,046	\$ 2,507,308

The above ageing analysis was based on past due date.

B. As of December 31, 2022 and 2021, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2021, the balance of accounts receivable and notes receivable from contracts with customers amounted to \$1,965,247.

C. The credit quality of accounts receivable was in the following category based on the Company's Credit Quality Control Policy:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
With guarantee	\$ 277,412	\$ 153,522
Without guarantee	<u>2,142,802</u>	<u>1,958,834</u>
	<u>\$ 2,420,214</u>	<u>\$ 2,112,356</u>

The Company holds commercial papers, real estate, guarantee deposits and deposits as collateral for accounts receivable.

D. As at December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's notes receivable were \$375,832 and \$394,952, respectively, while the amount that best represents the Company's accounts receivable were \$2,413,462 and \$2,104,778, respectively.

E. Information relating to credit risk is provided in Note 12(2).

(5) Inventories

	<u>December 31, 2022</u>		
	<u>Cost</u>	<u>Allowance for valuation loss</u>	<u>Book value</u>
Raw materials	\$ 1,574,867	\$ -	\$ 1,574,867
Packing supplies	28,034	-	28,034
Work in progress	65,266	-	65,266
Finished goods	<u>809,770</u>	<u>(5,000)</u>	<u>804,770</u>
	<u>\$ 2,477,937</u>	<u>(\$ 5,000)</u>	<u>\$ 2,472,937</u>
	<u>December 31, 2021</u>		
	<u>Cost</u>	<u>Allowance for valuation loss</u>	<u>Book value</u>
Raw materials	\$ 1,039,258	\$ -	\$ 1,039,258
Packing supplies	26,940	-	26,940
Work in progress	26,805	-	26,805
Finished goods	<u>635,994</u>	<u>(6,120)</u>	<u>629,874</u>
	<u>\$ 1,728,997</u>	<u>(\$ 6,120)</u>	<u>\$ 1,722,877</u>

The cost of inventories recognised as expense for the year:

	<u>2022</u>	<u>2021</u>
Cost of goods sold	\$ 23,248,284	\$ 20,035,336
Gain on reversal of decline in market value	(1,120)	(880)
Others	<u>7,761</u>	<u>1,736</u>
	<u>\$ 23,254,925</u>	<u>\$ 20,036,192</u>

- A. The cost of goods sold includes the cost of selling biological assets.
- B. Others pertain mainly to gain and loss on physical inventory count and income from disposal of leftover and scraps.
- C. The Company reversed a previous inventory write-down which was accounted for as reduction of cost of goods sold because of the increase in market prices of certain finished goods.

(6) Investments accounted for using equity method

- A. Details of investments accounted for using equity method-subidiaries and joint ventures are provided as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Plenty Type Limited (Cayman Islands)	\$ 1,728,226	\$ 1,639,683
Charoen Pokphand (Taiwan) Corp., Ltd.	49,730	46,027
Arbor Acres Taiwan Co., Ltd.	94,185	85,650
Rui Mu Foods Co., Ltd.	130,058	155,442
Rui Fu Foods Co., Ltd.	317,014	280,850
Feng Sheng Livestock Co., Ltd.	<u>94,713</u>	<u>100,160</u>
	<u>\$ 2,413,926</u>	<u>\$ 2,307,812</u>

- B. Share of profit (loss) of subsidiaries and joint ventures accounted for using equity method:

	<u>2022</u>	<u>2021</u>
Plenty Type Limited (Cayman Islands)	\$ 33,395	\$ 56,505
Charoen Pokphand (Taiwan) Corp., Ltd.	17,718	15,832
Arbor Acres Taiwan Co., Ltd.	23,892	15,430
Rui Mu Foods Co., Ltd.	(25,384)	(28,694)
Rui Fu Foods Co., Ltd.	(14,836)	(38,826)
Feng Sheng Livestock Co., Ltd.	<u>(5,447)</u>	<u>280</u>
	<u>\$ 29,338</u>	<u>\$ 20,527</u>

- C. Share of other comprehensive income (loss) of subsidiaries accounted for using equity method:

Components of other comprehensive income that will not be reclassified to profit or loss

	<u>2022</u>	<u>2021</u>
Plenty Type Limited (Cayman Islands)	(\$ 105,270)	(\$ 258,425)
Charoen Pokphand (Taiwan) Corp., Ltd.	647	330
Arbor Acres Taiwan Co., Ltd.	643	360
	<u>(\$ 103,980)</u>	<u>(\$ 257,735)</u>

Items may be subsequently reclassified to profit or loss

	<u>2022</u>	<u>2021</u>
Plenty Type Limited (Cayman Islands)	\$ 160,418	(\$ 36,291)

D. Details of the subsidiaries are provided in Note 4(3) in the Company's consolidated financial statements for the year ended December 31, 2022.

(7) Biological assets

A. Biological assets

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Biological assets - current:		
Consumable biological assets	\$ 1,561,473	\$ 1,268,038
Consumable biological assets - changes in fair value less costs to sell	59,738	38,229
Bearer biological assets	324,265	284,425
Bearer biological assets - accumulated depreciation	(102,521)	(115,994)
	<u>\$ 1,842,955</u>	<u>\$ 1,474,698</u>
Biological assets - non-current:		
Bearer biological assets	\$ 604,654	\$ 531,928
Bearer biological assets - accumulated depreciation	(102,565)	(87,087)
	<u>\$ 502,089</u>	<u>\$ 444,841</u>

Consumable biological assets are those that are to be harvested as agricultural products or sold as biological assets. Bearer biological assets are those other than consumable biological assets.

B. Movements of biological assets are as follows:

	<u>2022</u>	<u>2021</u>
At January 1	\$ 1,919,539	\$ 1,685,001
Purchases	1,639,537	1,599,328
Costs and expenses input	8,637,261	7,157,718
Sales	(4,193,674)	(3,411,821)
Gain (loss) on change in fair value less cost to sell	21,509	(12,738)
Transfer to inventories	(5,668,674)	(5,092,461)
Others	(10,454)	(5,488)
At December 31	<u>\$ 2,345,044</u>	<u>\$ 1,919,539</u>

C. Biological assets are comprised of broiler chicken, breeder chicken, fattening swine, and breeder swine, etc. Biological assets, other than fattening swine which are measured at fair value less costs to sell at each reporting date, are measured at cost less accumulated depreciation and impairment losses. The fair value of fattening swine is measured using quoted market prices as references.

The market prices or fair values at the present condition of breeders are unavailable due to short production cycle; the market prices or fair values at present condition of broiler chickens are difficult to obtain. The valuation based on a discounted cash flow method is considered unreliable given the uncertainty with respect to external factors such as climate, weather, diseases etc. Therefore, breeders and broiler chicken are measured using the cost approach. Cost of biological assets includes all costs incurred during the growth cycle such as cost of new-born animals, feed costs, and other farm costs.

Bearer biological assets are depreciated using the straight-line method through the productive period of each biological asset. The productive period of breeder swine is approximately 24 ~ 36 months; the productive period of breeder chickens is approximately 30 weeks. For the years ended December 31, 2022 and 2021, depreciation expense on biological assets amounted to \$323,158 and \$311,527, respectively.

D. Estimates of physical quantities of biological assets are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Estimates of physical quantities (Units: heads)	<u>4,843,410</u>	<u>4,668,702</u>

E. Financial risk management policies

The Company is exposed to commodity risks arising from changes in market prices of the chickens and swine. The Company does not anticipate that the prices of the agricultural products will decline significantly in the foreseeable future and there is no available derivative or other contracts. The Company reviews the predictions of the prices of the agriculture products regularly, and considers such predictions in assessing financial risk.

(8) Property, plant and equipment

	Land	Land improvements	Buildings and structures	Machinery and equipment	Transportation equipment	Leasehold improvements	Other equipment	Construction in progress and equipment to be inspected	Total
<u>At January 1, 2022</u>

	<u>\$ 2,544,082</u>	<u>\$ 159,170</u>	<u>\$ 2,518,775</u>	<u>\$ 1,705,658</u>	<u>\$ 178,806</u>	<u>\$ 341,432</u>	<u>\$ 688,879</u>	<u>\$ 2,131,024</u>	<u>\$ 10,267,826</u>

A. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation are as follows:

	<u>2022</u>	<u>2021</u>
Amount capitalised	\$ 11,456	\$ 12,550
Interest rate range	0.99%~1.75%	0.99%~1.04%

B. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

C. As of December 31, 2022 and 2021, the Company held 130 parcels and 129 parcels of agricultural land, respectively. The carrying amounts of land registered under the title of others amounted to \$809,770 and \$755,059, respectively. The titles of these parcels of land are registered under the title of individuals, however, the Company has agreements with those individuals to pledge these agricultural land to the Company.

(9) Leasing arrangements - lessee

A. The Company leases various assets including land, buildings, business vehicles, and other equipment. Rental contracts are typically made for periods of 1 to 22 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
	<u>Carrying amount</u>	<u>Carrying amount</u>
Land	\$ 292,431	\$ 299,480
Buildings	32,012	28,706
Other equipment	15,930	10,909
	<u>\$ 340,373</u>	<u>\$ 339,095</u>

	<u>2022</u>	<u>2021</u>
	<u>Depreciation charge</u>	<u>Depreciation charge</u>
Land	\$ 30,213	\$ 27,572
Buildings	10,893	7,885
Other equipment	8,333	6,802
	<u>\$ 49,439</u>	<u>\$ 42,259</u>

C. For the years ended December 31, 2022 and 2021, the additions to right-of-use assets were \$53,869 and \$64,365, respectively.

D. The Company has no significant profit or loss in relation to lease contracts for the years ended December 31, 2022 and 2021.

E. For the years ended December 31, 2022 and 2021, the Company's total cash outflow for leases were \$47,734 and \$42,048, respectively.

(10) Intangible assets

Software

	<u>2022</u>	<u>2021</u>
<u>At January 1</u>		
Cost	\$ 14,574	\$ 10,557

Secured loans	2020.11.12~2030.10.15	0.50%~1.00%	\$ 1,130,000
Unsecured credit loans	2017.09.06~2028.09.29	0.79%~1.25%	5,200,000
			6,330,000
Less: Current portion			(200,000)
			<u>\$ 6,130,000</u>

Information on collaterals pledged for long-term borrowings is provided in Note 8.

(14) Pensions

A. Defined benefit plan

- (a) The Company has defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit plans, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to specific percentage of the employees' monthly salaries and wages to the retirement fund deposited with the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Present value of defined benefit obligations	(\$ 340,597)	(\$ 376,613)
Fair value of plan assets	<u>298,157</u>	<u>273,398</u>
Net defined benefit liability	<u>(\$ 42,440)</u>	<u>(\$ 103,215)</u>

(c) Movements in net defined benefit liabilities are as follows:

	<u>Present value of defined benefit obligations</u>	<u>Fair value of plan assets</u>	<u>Net defined benefit liability</u>
<u>2022</u>			
Balance at January 1	(\$ 376,613)	\$ 273,398	(\$ 103,215)
Current service cost	(1,608)	-	(1,608)
Interest (expense) income	(2,359)	<u>1,740</u>	(619)
	<u>(380,580)</u>	<u>275,138</u>	<u>(105,442)</u>
Remeasurements:			
Return on plan assets (excluding amounts included in interest income or expense)	-	21,460	21,460
Change in financial assumptions	14,775	-	14,775
Experience adjustments	<u>5,233</u>	<u>-</u>	<u>5,233</u>
	<u>20,008</u>	<u>21,460</u>	<u>41,468</u>
Pension fund contribution	-	21,534	21,534
Paid pension	<u>19,975</u>	<u>(19,975)</u>	<u>-</u>
Balance at December 31	<u>(\$ 340,597)</u>	<u>\$ 298,157</u>	<u>(\$ 42,440)</u>

	Present value of defined <u>benefit obligations</u>	Fair value of <u>plan assets</u>	Net defined <u>benefit liability</u>
<u>2021</u>			
Balance at January 1	(\$ 420,022)	\$ 279,885	(\$ 140,137)
Current service cost	(2,271)	-	(2,271)
Interest (expense) income	(1,210)	815	(395)
	<u>(423,503)</u>	<u>280,700</u>	<u>(142,803)</u>
Remeasurements:			
Return on plan assets (excluding amounts included in interest income or expense)	-	4,247	4,247
Change in demographic assumptions	(532)	-	(532)
Change in financial assumptions	10,101	-	10,101
Experience adjustments	4,530	-	4,530
	<u>14,099</u>	<u>4,247</u>	<u>18,346</u>
Pension fund contribution	-	21,242	21,242
Paid pension	32,791	(32,791)	-
Balance at December 31	<u>(\$ 376,613)</u>	<u>\$ 273,398</u>	<u>(\$ 103,215)</u>

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labour Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2022 and 2021 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	<u>2022</u>	<u>2021</u>
Discount rate	1.25%	0.65%
Future salary increases	2.00%	2.00%

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	<u>Discount rate</u>		<u>Future salary increases</u>	
	<u>Increase 1%</u>	<u>Decrease 1%</u>	<u>Increase 1%</u>	<u>Decrease 1%</u>
<u>2022</u>				
Effect on present value of defined benefit obligation	(<u>\$ 22,503</u>)	<u>\$ 25,210</u>	<u>\$ 24,756</u>	(<u>\$ 22,556</u>)
<u>2021</u>				
Effect on present value of defined benefit obligation	(<u>\$ 26,932</u>)	<u>\$ 30,397</u>	<u>\$ 29,661</u>	(<u>\$ 26,844</u>)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(f) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2023 amount to \$15,574.

(g) As of December 31, 2022, the weighted average duration of the retirement plan is 7 years.

B. Defined contribution plan

Effective July 1, 2005, the Company has established defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs for the aforementioned defined contribution pension plan of the Company for the years ended December 31, 2022 and 2021 were \$47,463 and \$47,343, respectively.

(15) Share capital - common stocks

A. As of December 31, 2022, the Company's authorised capital was \$3,579,000, consisting of 357,900 thousand shares of common stock, and the paid-in capital was \$2,947,910, consisting of 294,791 thousand shares of common stock with a par value of \$10 (in dollars) per share. All proceeds from shares issuance have been collected. Movements in the number of the Company's ordinary shares outstanding are as follows:(in thousand shares)

	<u>2022</u>	<u>2021</u>
At January 1	2,679,910	2,679,910
Shareholders' stock dividends	267,991	-
At December 31	<u>2,947,901</u>	<u>2,679,910</u>

B. A resolution was passed during the Shareholders' meeting held on June 23, 2022, for the undistributed surplus used in the issuance of 26,799 thousand ordinary shares, with par value of \$10 per share amounting to \$267,991. The resolution was approved by the Financial Supervisory Commission. The shares were issued on August 31, 2022 after the chairman was authorised by the completion of capital increase, consisting of 294,790 thousand shares.

(16) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(17) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. A special reserve is set aside or reversed in accordance with related laws or regulations by the Competent Authority. The remainder, if any, along with the accumulated unappropriated earnings in prior years, shall be distributed as shareholders' bonus as resolved by the shareholders. Cash dividends to shareholders shall account for at least 10% of the total dividends to shareholders. If cash dividend is lower than \$0.1 (in dollars) per share, dividends are distributed using share dividends.

The Board of Directors of the Company may, upon resolution adopted by a majority vote at its meeting attended by two-thirds of the total number of directors, distribute dividends and bonus, or legal reserve and capital surplus, in whole or in part, in accordance with Paragraph 1 of Article 241 of the Company Act in the form of cash, which shall also be reported at the shareholders' meeting, while the proposal of appropriation shall be approved by the shareholders if dividends would be distributed by issuing new shares.

- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. The appropriations of earnings for 2021 passed the statutory resolution threshold through electronic voting on June 23, 2022, and the appropriations of earnings for 2020 had been resolved at the shareholders' meeting on June 21, 2021. The appropriations of earnings for 2021 have been resolved at the shareholders' meeting on June 23, 2022:

	2021		2020	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	\$ 137,043	\$ -	\$ 164,389	\$ -
Cash dividends	803,973	3.0	1,205,959	4.5
Stock dividends	267,991	1.0	-	-

The effective dates for the above distribution of cash dividends are July 11, 2022 and July 4, 2021, respectively. The ex-rights effective date for stock dividends was August 31, 2022.

- E. For the information relating to employees' compensation and directors' and supervisors' remuneration, refer to Note 6(24).

(18) Operating revenue

	2022	2021
Revenue from contracts with customers	\$ 26,895,450	\$ 23,272,864

- A. Disaggregation of revenue from contracts with customers

The Company derives revenue from the transfer of goods at a point in time.

- B. Contract liabilities

The Company has recognised the following revenue-related contract liabilities:

	December 31, 2022	December 31, 2021
Contract liabilities:		
Contract liabilities - advance receipts	\$ 70	\$ 98

(19) Other income and expenses, net

Other income and expenses, net are gains (losses) on change in fair value less costs to sell of biological assets.

	<u>2022</u>	<u>2021</u>
Other income and expenses, net	\$ 21,509	(\$ 12,738)

(20) Interest income

	<u>2022</u>	<u>2021</u>
Interest income	\$ 504	\$ 265

(21) Other income

	<u>2022</u>	<u>2021</u>

Directors' remuneration	-	36,504	36,504	-	36,504	36,504
Other personnel expenses (Note)	60,271	12,494	72,765	62,918	7,298	70,216
Depreciation on fixed assets	746,469	72,227	818,696	626,140	66,691	692,831
Depreciation on right-of-use assets	39,188	10,251	49,439	34,443	7,816	42,259
Amortisation	5,167	679	5,846	3,958	573	4,531

Note: Other personnel expenses include meal allowance, training expenses and employee benefits.

- A. As of December 31, 2022 and 2021, the Company had 2,226 and 2,193 employees, respectively, and had 5 directors for both years.
- B. For the years ended December 31, 2022 and 2021, the average employee benefits were \$899 and \$892, and the average salary expenses were \$773 and \$766, respectively. The change in adjustment on average salary expenses was 0.91%.
- C. According to the Articles of Incorporation of the Company, an amount equal to at least 1% of the Company's distributable profit of the current year should be appropriated as employees' compensation expense. If the Company has an accumulated deficit, earnings should be reserved to cover the accumulated losses in advance.
- D. For the years ended December 31, 2022 and 2021, employees' compensation was accrued at \$19,058 and \$17,194, respectively. The aforementioned amounts were recognised in wages and salaries expense.

For the year ended December 31, 2022, the employees' compensation was estimated and accrued based on 1% (as prescribed by the Company's Articles of Incorporation) of distributable profit of current year as of the end of reporting period.

For 2021, the difference of \$36 between employees' compensation of \$17,158 resolved by the Board of Directors and the amount of \$17,194 recognised in the 2021 financial statements, mainly resulting from a variance in estimation, was adjusted in profit or loss for 2022.

- E. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.
- F. The Company sets up the audit committee and therefore had no supervisors' remuneration for the years ended December 31, 2022 and 2021.

G. The Company's overall salary is positioned above the market levels to cultivate and attract outstanding talents. The Company takes into consideration its operating situation and refers to the Consumer Price Index, economic growth rate, national income, and market and industry salary levels to ensure a highly competitive salary structure to motivate and retain high performance talents. In addition to strictly complying with the Labor Standards Act of the local government, the Company also pays attention to the correlation and design rationalisation between the Company's operating performance and employees' salaries.

Directors' remuneration is determined by the Board of Directors based on the pay levels of listed companies in the same industry and their contribution. Independent directors' remuneration is determined based on the market pay levels. Managers' salaries are highly correlated with the Company's operating results and performance, and managers' compensation and bonuses are determined based on their performance indicators every year.

Employees' compensation includes monthly salaries and bonuses. Employees' salary standards are determined based on their positions, education and work experience, professional expertise and market value. The base salaries and bonuses are determined in compliance with the Act of Gender Equality in Employment and are not different due to gender, religion, political stance and marital status, etc. The annual budget for salary adjustment is approximately 2% or more (depending on the Company's operating results and performance) and the salaries are adjusted to be in line with the market levels and based on the principle of fairness. The employees' bonuses are determined based on their positions and performance as encouragement. The vision is for employees to work as a team with the Company for mutual benefits and common prosperity to operate the business as a going concern.

(25) Income tax

A. Income tax expense

(a) Components of income tax expense:

	2022	2021
Current tax:		
Current tax on profits for the year	\$ 380,966	\$ 336,027
Tax on undistributed surplus earnings	8,071	13,677
Prior year income tax overestimation	(14,185)	(18,626)
Total current tax	(6,623)	-
	368,229	331,078
Deferred tax:		
Origination and reversal of temporary differences	6,663	11,633
Total deferred tax	6,663	11,633
Income tax expense	\$ 374,892	\$ 342,711

(b) The income tax relating to components of other comprehensive income is as follows:

	<u>2022</u>	<u>2021</u>
Changes in fair value of financial assets at fair value through other comprehensive income	\$ <u>6,220</u>	(\$ <u>11,591</u>)
Remeasurement of defined benefit obligations	\$ <u>8,294</u>	\$ <u>3,669</u>

B. Reconciliation between income tax expense and accounting profit

	<u>2022</u>	<u>2021</u>
Tax calculated based on profit before tax and statutory tax rate	\$ 386,053	\$ 339,673
Expenses disallowed by tax regulation	764	792
Tax exempt income by tax regulation	811	7,195
Prior year income tax over estimation	(14,184)	(18,626)
Tax on undistributed surplus earnings	8,071	13,677
Separate taxation (Repatriated Offshore Funds)	(6,623)	-
Income tax expense	<u>\$ 374,892</u>	<u>\$ 342,711</u>

C. (a) Amounts of deferred tax assets or liabilities as a result of temporary differences, tax losses and investment tax credits are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Temporary differences:		
Accrued sales discounts	\$ 25,402	\$ 19,158
Provision for loss on spare parts	4,138	3,704
Pension expense in excess of the limit for tax purpose	8,488	20,643
Provision for inventory valuation loss and change in fair value of biological assets	(10,948)	(6,422)
Unrealised foreign investment income	(25,053)	(18,374)
Unrealised exchange loss	(1,180)	(317)
Changes in fair value of financial assets at fair value through other comprehensive income	5,370	11,591
Changes in fair value of financial liabilities at fair value through profit or loss	2,358	-
Others	(78)	(308)

(3) Significant related party transactions and balances

A. Operating revenue

	<u>2022</u>	<u>2021</u>
Sales of goods:		
Subsidiaries	\$ 373,686	\$ 393,861
Other related parties	239,074	188,420
	<u>\$ 612,760</u>	<u>\$ 582,281</u>

Goods are sold based on the price lists in force and terms that would be available to third parties.

B. Purchases

	<u>2022</u>	<u>2021</u>
Purchases of goods:		
Ultimate parent company	\$ 92,558	\$ 41,593
Subsidiaries	239,498	178,481
Other related parties	34,052	23,264
	<u>\$ 366,108</u>	<u>\$ 243,338</u>

Goods are purchased from related parties on normal commercial terms and conditions.

C. Receivables from related parties

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes and accounts receivable:		
Subsidiaries	\$ 82,195	\$ 95,141
Other related parties	<u>44,952</u>	<u>21,358</u>
	<u>127,147</u>	<u>116,499</u>
Other receivable:		
Subsidiaries	<u>207</u>	<u>64</u>
	<u>\$ 127,354</u>	<u>\$ 116,563</u>

The receivables from related parties arise mainly from sales transactions. The receivables are unsecured in nature and bear no interest. There are no provisions held against receivables from related parties.

D. Payables to related parties

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes and accounts payable:		
Ultimate parent company	\$ -	\$ 3,115
Subsidiaries	19,090	24,342
Other related parties	<u>412</u>	<u>3,047</u>
	<u>19,502</u>	<u>30,504</u>
Other payable:		
Subsidiaries	295	183
Other related parties	<u>26,814</u>	<u>23,432</u>
	<u>27,109</u>	<u>23,615</u>
	<u>\$ 46,611</u>	<u>\$ 54,119</u>

The payables to related parties arise mainly from purchase transactions. The payables bear no interest. The other payables arise mainly from technical service expenses and trademarks.

E. Rental income (shown as ‘Other income’)

<u>Lessee</u>	<u>2022</u>	<u>2021</u>
Subsidiaries	\$ 2,220	\$ 4,320
Other related parties	<u>86</u>	<u>86</u>
	<u>\$ 2,306</u>	<u>\$ 4,406</u>

The rental receivables are collected annually based on the contracts.

F. Property transactions

Acquisition of property, plant and equipment

The Company purchased land and buildings from other related party for operational expansion amounting to \$68,660 as resolved by the Board of Directors in August 2022. As of December 31, 2022, the Company had paid \$48,000.

G. Technical service agreement

- (a) The Company signed a technical service agreement with CPG since 1996. CPG helps the Company to manufacture feeds, raise animals and to process meat products, and the Company pays compensation of THB12 million (net value) for the services annually. The commitment would not be terminated except when any of the two parties would agree to end the agreement. For the years ended December 31, 2022 and 2021, the Company recognised technical service expenses amounting to \$10,840 and \$11,392, respectively.
- (b) The Company signed a technical service agreement with CPG at the end of 2015. CPG helps the Company to raise animals and provides consulting services of related technical skills, and the Company pays compensation of \$700 for the services monthly. The contract is effective for 5 years. The contract term was extended to five years effective from the end of 2020. For the years ended December 31, 2022 and 2021, the Company recognised technical service expense amounting to \$8,400 for both years.

H. Trademark licensing agreement

The Company signed a trademark license agreement with CPG at the end of 2015. The contract authorises the Company to use ‘CP’ as trademark in the designated area (Republic of China). Royalties are paid monthly based on 1.5% of the net amount of sales. The contract is effective for 5 years. The contract term was extended to five years effective from the end of 2020. For the years ended December 31, 2022 and 2021, the Company recognised royalties amounting to \$92,361 and \$82,709, respectively.

(4) Key management compensation

	<u>2022</u>	<u>2021</u>
Salaries and other short-term employee benefits	\$ 190,359	\$ 191,566
Post-employment benefits	1,544	1,661
Total	<u>\$ 191,903</u>	<u>\$ 193,227</u>

8. PLEDGED ASSETS

The Company's assets pledged as collateral are as follows:

<u>Pledged assets</u>	<u>Book value</u>		<u>Purpose</u>
	<u>December 31,</u> <u>2022</u>	<u>December 31,</u> <u>2021</u>	
Time deposits - shown as 'Other current assets'	\$ 9,650	\$ 9,650	Guarantee deposit
Land	862,987	862,987	Long-term borrowings
Buildings and structures	620,850	-	Long-term borrowings
Machinery and equipment	523,066	-	Long-term borrowings
Construction in progress	73,909	908,053	Long-term borrowings
	<u>\$ 2,090,462</u>	<u>\$ 1,780,690</u>	

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

Other than those stated in Note 7, the significant commitments and contingent liabilities of the Company were as follows:

- (1) As of December 31, 2022 and 2021, the Company had opened unused letters of credit for purchases of raw materials and machinery of \$508,723 and \$1,226,945, respectively.
- (2) As of December 31, 2022 and 2021, the Company had several outstanding construction contracts and equipment purchase agreements amounting to \$989,117 and \$463,682, respectively, which will be paid on the basis of percentage of completion.
- (3) The Company subsequently invested to establish chicken farms in Hualien County starting from 2018, and had submitted an application to the Hualien County Government for approval based on the Company's building and feeding project. However, the Hualien County Government issued a letter on July 10, 2020 to terminate the Company's application for the building of farming facilities on agricultural land without taking into consideration the measures and goodwill that the Company took in order to reach consensus with local residents and resolve controversy. The Company has appointed lawyers and filed an appeal as administrative remedy. For the administrative appeal filed against the administrative action concerning the revocation of the permission letter to use the land in dispute, the Council of Agriculture of Executive Yuan revoked the aforesaid administrative action in accordance with the Appeal Resolution Letter Order No. Nong-Su-Zi-1090727273, dated January 12, 2021. On July 26, 2021, the Hualien County Government sent another letter alleging that the Company did not obtain permission for agricultural use in accordance with the regulations and revoking the permission in accordance with Article 117 of the Administrative Procedures Act. The Company has appointed a lawyer to file an appeal. As of December 31, 2022, the related costs incurred by the Company amounted to \$71,281, excluding the cost of land.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

None.

12. OTHERS

(1) Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

(2) Financial risk of financial instruments

A. Financial instruments by category

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
<u>Financial assets</u>		
Financial assets measured at fair value through other comprehensive income		
Designation of equity instrument	\$ 972,692	\$ 941,589
Financial assets at amortised cost		
Cash and cash equivalents	122,778	126,478
Notes receivable (including related parties)	375,832	398,903
Accounts receivable (including related parties)	2,540,609	2,217,326
Other accounts receivable (including related parties)	50,953	17,839
Refundable deposits	36,904	39,299
Other financial assets - current	9,650	9,650
	<u>\$ 4,109,418</u>	<u>\$ 3,751,084</u>

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
<u>Financial liabilities</u>		
Financial liabilities at amortised cost		
Short-term borrowings	\$ 3,651,097	\$ 2,771,030

Notes payable (including related parties)	590,819	435,919
Accounts payable (including related parties)	894,025	801,745
Other accounts payable (including related parties)	849,806	757,910
Current financial liabilities at fair value through profit or loss	11,791	-
Long-term borrowings (including current portion)	7,040,000	6,330,000
Lease liability	<u>\$ 13,975,686</u>	<u>\$ 12,085,923</u>
	<u>\$ 329,416</u>	<u>\$ 326,635</u>

B. Financial risk management policies

- (a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Company treasury) under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units.

C. Financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and HKD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- ii. Management has set up a policy to require the Company to manage its foreign exchange risk against its functional currency.
- iii. The Company has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.

- iv. The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2022				
	Foreign currency amount		Exchange rate	Book value (NTD)
	(in thousands)			
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD:NTD	USD	40	30.66	\$ 1,231
<u>Non-monetary item</u>				
HKD:NTD	HKD	440,167	3.93	1,728,226
THB:NTD	THB	1,098,216	0.89	972,692
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD:NTD	USD	18,187	30.76	\$ 559,422
EUR:NTD	EUR	61	33	2,015

December 31, 2021				
	Foreign currency amount		Exchange rate	Book value (NTD)
	(in thousands)			
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD:NTD	USD	12	27.63	\$ 319
<u>Non-monetary item</u>				
HKD:NTD	HKD	461,193	3.56	1,639,683
THB:NTD	THB	1,129,214	0.83	941,589
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD:NTD	USD	11,020	27.73	\$ 305,575
EUR:NTD	EUR	133	31.52	4,192
JPY:NTD	JPY	5,085	0.24	1,233

- v. Total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2022 and 2021 amounted to (\$39,464) and \$30,744, respectively.

vi. Analysis of foreign currency market risk arising from significant foreign exchange variation:

		2022		
		Sensitivity analysis		
		Degree of variation	Effect on profit or loss	Effect on other comprehensive income
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary item</u>				
USD : NTD	1%	\$	12	\$ -
<u>Non-monetary item</u>				
HKD : NTD	1%		-	17,282
THB : NTD	1%		-	9,727
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD : NTD	1%	(\$	5,594)	\$ -
EUR : NTD	1%	(20)	-
JPY : NTD	1%		-	-
		2021		
		Sensitivity analysis		
		Degree of variation	Effect on profit or loss	Effect on other comprehensive income
(Foreign currency : functional currency)				
<u>Financial assets</u>				
<u>Monetary item</u>				
USD : NTD	1%	\$	3	\$ -
<u>Non-monetary item</u>				
HKD : NTD	1%		-	16,397
THB : NTD	1%		-	9,416
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD : NTD	1%	(\$	3,056)	\$ -
EUR : NTD	1%	(42)	-
JPY : NTD	1%	(12)	-

Price risk

- i. The Company is exposed to equity securities price risk because of investments held by the Company and classified on the balance sheet as financial assets at fair value through other comprehensive income. Refer to Note 6(2).
- ii. For the Company's strategies for biological assets price risk, refer to Note 6(6).
- iii. The Company's investment in equity securities comprise foreign listed stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other equity for the years ended December 31, 2022 and 2021 would have increased/decreased by \$7,782 and \$7,533, respectively, as a result of post-tax gains/losses on equity securities classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Company's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. During the years ended December 31, 2022 and 2021, the Company's borrowings at variable rate were denominated in NTD.
- ii. The Company analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the Company calculates the impact on profit and loss of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies. The scenarios run only for liabilities that represent the major interest-bearing positions.
- iii. For the years ended December 31, 2022 and 2021, if interest rates on NTD-denominated borrowings at that date had been 1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2022 and 2021, would have been \$56,320 and \$50,640 lower/higher, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is the contract cash flows when counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Company manages its credit risk taking into consideration the entire Company's concern. According to the Company's credit policy, the Company is responsible for

managing and analysing the credit risk for each of the new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. Based on the Company's historical experience, if the contract payments were past due over 17 days, there has been a significant increase in credit risk on that instrument since initial recognition. As a result, the Company should strengthen controls and make follow-up procedures.
- iv. The Company pays attention on specific customers whose payments were past due to confirm the debts and recognises the allowance for bad debts when there is a concern about default based on the assessment of customers' credit risk.
- v. The Company classifies customers' accounts receivable in accordance with customer types. The Company applies the simplified approach using loss rate methodology to estimate expected credit loss impairment under the provision matrix basis.
- vi. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights. For the years ended December 31, 2022 and 2021, the Company's written-off financial assets that are still under recourse procedures amounted to \$7,699 and \$1,645, respectively.
- vii. The Company used the forecastability of the global economy to adjust historical and timely information to assess the default possibility of accounts receivable in accordance with customers' credit. As of December 31, 2022 and 2021, the expected loss rate is as follows:

	Current	Up to 120 days	121-365 days	Over one year	Total
December 31, 2022					
Expected loss rate	0.05%	1.5%~100%	100%	100%	
Total book value	\$ 2,648,493	\$ 145,446	\$ 55	\$ 2,052	\$ 2,796,046
Loss allowance	1,439	3,206	55	2,052	6,752

	Current	Up to 120 days	121-365 days	Over one year	Total
December 31, 2021					
Expected loss rate	0.05%	1.50%~100%	100%	100%	
Total book value	\$ 2,344,559	\$ 160,165	\$ 431	\$ 2,153	\$ 2,507,308
Loss allowance	1,487	3,507	431	2,153	7,578

- viii. Movements in relation to the Company applying the simplified approach to provide loss

allowance for notes and accounts receivable are as follows:

	<u>2022</u>	<u>2021</u>
	Notes and accounts receivable (including related parties)	Notes and accounts receivable (including related parties)
At January 1	\$ 7,578	\$ 6,326
Provision for impairment loss	(442)	1,252
Write-offs	(384)	-
At December 31	<u>\$ 6,752</u>	<u>\$ 7,578</u>

The reversal of and provision for impairment loss arising from customers' contracts for the years ended December 31, 2022 and 2021 amounted to \$442 and \$1,252, respectively.

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Company and aggregated by Company treasury. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Company's financial ratio targets, covenant compliance and applicable external regulatory or legal requirements.
- ii. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities

December 31, 2022	<u>Less than 1 year</u>	<u>Between 1 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 3,651,097	\$ -	\$ -
Short-term notes and bills payable	940,000	-	-
Notes payable (including related parties)	590,819	-	-
Accounts payable (including related parties)	894,025	-	-
Other payables (including related parties)	849,806	-	-
Lease liabilities	31,890	147,505	173,115
Current financial liabilities at fair value through profit or loss	11,791	-	-
Long-term borrowings (including current portion)	758,719	5,674,637	877,495

Non-derivative financial liabilities

December 31, 2021	<u>Less than 1 year</u>	<u>Between 1 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 2,771,030	\$ -	\$ -
Short-term notes and bills payable	990,000	-	-
Notes payable (including related parties)	435,919	-	-
Accounts payable (including related parties)	801,745	-	-
Other payables (including related parties)	757,910	-	-
Lease liabilities	27,096	139,094	185,464
Long-term borrowings (including current portion)	263,862	5,233,640	1,016,414

iii. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. Details of the fair value of the Company's financial assets and financial liabilities not measured at fair value are provided in Note 12(2) A.
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in biological assets is included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Biological assets	\$ <u> -</u>	\$ <u>1,231,923</u>	\$ <u> -</u>	\$ <u>1,231,923</u>
Financial assets at fair value through other comprehensive income:				
Equity securities	\$ <u>972,692</u>	\$ <u> -</u>	\$ <u> -</u>	\$ <u>972,692</u>
Financial liabilities at fair value through profit or loss:				
Derivatives instruments	\$ <u> -</u>	\$ <u>11,791</u>	\$ <u> -</u>	\$ <u>11,791</u>
<u>December 31, 2021</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets				
<u>Recurring fair value measurements</u>				
Biological assets	\$ <u> -</u>	\$ <u>974,696</u>	\$ <u> -</u>	\$ <u>974,696</u>
Financial assets at fair value through other comprehensive income:				
Equity securities	\$ <u>941,589</u>	\$ <u> -</u>	\$ <u> -</u>	\$ <u>941,589</u>

D. The methods and assumptions of the Company used to measure fair value are as follows:

- (a) The instruments the Company used quoted market prices as their fair values (that is, Level 1) are listed stocks, whose quoted market prices are based on the closing prices and which are classified as available-for-sale financial assets.
- (b) The Company takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Company's credit quality.
- (c) Details of methods for measuring Level 2 - Biological assets are provided in Note 6(7).

E. For the years ended December 31, 2022 and 2021, there was no transfer between Level 1 and Level 2.

F. For the years ended December 31, 2022 and 2021, there was no transfer into or out from Level 3.

(4) Other matter

The Company was able to maintain its normal operations during the Covid-19 outbreak and has implemented several preventive measures imposed by the government. The Company assessed that the pandemic has no significant impact on the Company's ability to continue as a going concern, assets impairment and financing risks.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

A. Loans to others: None.

B. Provision of endorsements and guarantees to others during the year ended December 31, 2022: None.

C. Holding of marketable securities at December 31, 2022 (not including subsidiaries, associates and joint ventures):

Securities held by	Marketable securities		Relationship with the securities issuer	General ledger account	As of December 31, 2022				Footnote
	Types	Name			Number of shares	Book value	Ownership	Fair value (Note 1)	
The Company	Common share	CHAROEN POKPHAND FOODS PUBLIC COMPANY LIMITED	(Note 2)	Financial assets at fair value through other comprehensive income	44,282,900	\$ 972,692	0.51%	\$ 972,692	
Plenty Type Limited (Cayman Islands)	Common share	CHAROEN POKPHAND FOODS PUBLIC COMPANY LIMITED	(Note 2)	Financial assets at fair value through other comprehensive income	76,800,000	1,687,093	0.89%	1,687,093	

Note 1: The numbers filled in for market value are as follows:

(1) Where there is a quoted market price, the fair value is based on the closing price at the balance sheet date, the fair value of open-end funds is based on the net asset value at the balance sheet date.

(2) Where there is no quoted market price, this column is filled in with the book value per share for stocks or left blank for other instruments.

Note 2: Investee company accounted for as financial assets at fair value through other comprehensive income by the Company and Plenty Type Limited (Cayman Islands), which is ultimate parent entity of the Company

D. Acquisition or sale of the same security with the accumulated cost exceeding NT\$300,000 or 20% of the Company's paid-in capital during the year ended December 31, 2022: None

Note 1: Marketable securities in the table refer to stocks, bonds, beneficiary certificates and other related derivative securities.

Note 2: Fill in the columns the counterparty and relationship if securities are accounted for under the equity method; otherwise leave the columns blank.

Note 3: Aggregate purchases and sales amounts should be calculated separately at their market values to verify whether they individually reach NT\$300,000 or 20% of paid-in capital or more.

Note 4: The original cost without considering amortisation and adjustments for fair values.

E. Acquisition of real estate reaching NT\$300,000 or 20% of paid-in capital or more during the year ended December 31, 2022: None.

F. Disposal of real estate reaching NT\$300,000 or 20% of paid-in capital or more during the year ended December 31, 2022: None.

G. Purchases or sales of goods from or to related parties reaching NT\$100,000 or 20% of paid-in capital or more during the year ended December 31, 2022:

Purchaser/seller	Counterparty	Relationship with the counterparty	Transaction			Differences in transaction terms compared to third transactions		Notes/accounts receivable (payable)		Footnote	
			Purchases (sales)	Amount	Percentage of total purchases (sales)	Credit term	Unit price	Credit term	Balance		Percentage of total notes/accounts receivable (payable)
The Company	Rui Fu Foods Co., Ltd.	Subsidiary	Sales revenue	\$215,234	0.80%	60 days	The same as general transactions	None	\$ 45,097	1.55%	
The Company	Rui Mu Foods Co., Ltd.	Subsidiary	Sales revenue	119,383	0.44%	180 days	The same as general transactions	None	29,970	1.03%	
The Company	Arbor Acres Taiwan Co., LTD	Subsidiary	Purchases	110,516	0.52%	105 days	The same as general transactions	None	9,529	0.64%	

H. Receivables from related parties reaching NT\$100,000 or 20% of paid-in capital or more as at December 31, 2021: None.

I. Trading in derivative instruments undertaken during the year ended December 31, 2022: Refer to Note 6(2).

J. Significant inter-company transactions during the year ended December 31, 2022:

The inter-company transactions below 1% of consolidated assets or revenue are not disclosed.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China):

Investor	Investee	Location	Main business activities	Initial investment amount		Shares held as of December 31, 2022			Net profit (loss) of the investee	Investment income (loss) recognised by the Company	Footnote

Retained earnings		4,895,278	4,377,398	517,880	11.83	
Other equity interest		1,147,149	1,067,118	80,031	7.50	
Non-controlling interest		490,796	463,915	26,881	5.79	
Total equity		9,487,764	8,593,007	894,757	10.41	

Note 1: Please refer to the Explanation (Note 2) about variance of items above when the variation is 20% or more and the amount is equal or larger than 20 million.

Note 2: Explanation

- (1) Current assets increased, the main changes are (1) affected by the continuously increasing in the cost of international raw materials, the adjustment of the price of main products led to an increase in Operating revenue. So, the Accounts receivables increased. (2) in order to improve the advantage of procurement, increased the purchase of raw materials, not only changes in quantity, but also affected by the fluctuations of abroad and domestic raw material price, which led to the increase in inventories. (3) with the expansion of the business scale, the breeding volume of various livestock and poultry products increased, so the Biological assets increased.
- (2) Current liabilities increased, the main changes are (1) increased the procurement of abroad and domestic raw material in response to the continuous expansion of business scale and increasing price of international raw materials which led to the increases in the Accounts payable, Notes payables and Short-term borrowings compared with the year 2022. (2) Long-term liabilities, current portion of the year 2022 increased by NT\$ 460 million compared with last year due to continue improvement of current Property, plant and equipment to improve production efficiency.

II. Analysis of Financial Performance

Unit: NT\$ 1,000

Item	Year	2022	2021	Difference		Explanation of variance
				Amount	%	
Operating revenue		\$28,959,220	\$24,841,345	4,117,875	16.58	
Operating costs		(25,082,443)	(21,441,119)	3,641,324	16.98	
Net operating margin		3,876,777	3,400,226	476,551	14.02	
Operating expenses		(1,894,607)	(1,795,948)	98,659	5.49	
Other income and expense, net		21,509	(12,738)	34,247	268.86	1
Operating profit		2,003,679	1,591,540	412,139	25.90	2
Non-operating income and expenses		(75,436)	53,210	(128,646)	(241.77)	3
Profit before income tax		1,928,243	1,644,750	283,493	17.24	
Income tax expense		(378,069)	(331,093)	46,976	14.19	
Profit for the year		\$ 1,550,174	\$ 1,313,657	236,517	18.00	

Note1: Please refer to the explanation of variance when the variation is 20% or more and the amount is equal or larger than 20 million.

Note2: The Company's business scope has not changed significantly. The Company has adopted the following countermeasures, which are expected to gradually receive positive benefits.

- (1) Use the Parent Company's existing global commodity procurement information to enhance procurement advantage and competitiveness.
- (2) Establish stable marketing channels by setting up brand channels, expanding cooperation with outstanding distributors, and building regional distribution and sales centers.
- (3) Focus on the major business and expand livestock production lines.
- (4) Introduce the Group's technology, R&D and managerial personnel to assist the Company to gain higher profits.

Note 3: The annual sales quantity in the coming year is expected to show slight growth compared with 2022 mainly due to:

- (1) In recent years, the Company has not only cooperated with farmers in breeding, but also assisted farmers in improving the breeding environment in order to improve production efficiency.
- (2) Construct a completed upstream, mid-stream and downstream vertical integration industrial chain to reduce production cost effectively.
- (3) In addition to the continuous construction of brand channels, the e-commerce platform channels which have been actively invested in by the Company in recent years have also grown steadily. Combined with the diversified development of modern people's consumption habits to comprehensively expand the mobile shopping for the vast market demand.

Explanation of variance:

1. Other income and expense, net increased mainly resulted from the gains (losses) on change in fair value less cost to sell of biological assets. In 2022, the market price was gradually increased to reflect the increase in feed cost and led to gains on fair value less cost to sell of biological assets. On the contrary, due to the influence of the continuous increasing feed cost, resulted in losses on change in fair value less cost to sell of biological assets. Therefore, the gains (losses) on change in fair value less cost to sell of biological assets of 2022 increased by NT\$34 million compared with 2021.
2. Operating profit increased, primary reason is that although the cost of raw materials continuing increased and market prices could not completely reflect in the increase of the costs, through the adjustments of operating strategy led to Net operating margin of 2022 increased by NT\$470 million compared with 2021. Operating expenses of 2022 increased by 8.7% compared with 2021. Overall, operating profit of 2022 increased by 25% compared with 2021.
3. Non-operating income and expenses decreased is mainly because (1) affected by the increasing U.S. interest rate and the domestic capital demand and supply, Financial costs of 2022 increased by NT\$65 million compared with 2021 (2) affected by the foreign exchange variation, Non-operating expenses increased by NT\$71 million since Net foreign exchanges was loss in 2022 while it was gains in 2021, and led to the decrease in Non-operating income and expenses.

III. Analysis of Cash Flow

1. Liquidity Analysis for the last two years

Item	Year		
	Dec. 31, 2022	Dec. 31, 2021	Variance (%)
Cash Flow Ratio (%)	15.80%	9.98%	58.32%
Cash Flow Adequacy Ratio (%)	39.84%	41.66%	(4.37)%
Cash Reinvestment Ratio (%)	2.67%	(2.47)%	(208.10)%
<p>Analysis of variance: The Cash flow ratio and Cash reinvestment ratio increased which resulted from increasing net cash inflow from operating activities, increasing current liabilities, and increasing investments in plant and equipment and decreasing in cash dividend. The main reasons are as follows:</p> <ol style="list-style-type: none"> 1. Increase in Net cash inflow from operating activities: (1) In response to the continuous rising cost of raw materials and in order to effectively control costs, increased procurement of raw materials which led to increase in inventories (2) The Group continued expanding husbandry business that the livestock raising amount increased and led to increasing in biological assets (3) Profit for the year of 2022 increased compared with the same period of 2021. 2. Increase in Current liabilities: in order to provide short-term working capital required by inventories and biological assets, payment of dividends, and replacement of old equipment, to increase short-term borrowings to cover the needs of normal operations and partial fixed assets. 3. Increase in investments in plant and equipment: continuously improving existing plant and equipment and purchasing automation equipment to expand the capacity of existing production lines, increase market shares and enhance the visibility of its own brand. 4. Decrease in Cash dividends: in order to enhance financial structures and improve the related financial ratios, the dividend policy of 2022 is still mainly distributed in cash dividend and supplemented by the distribution of stock dividend. 			

2. Cash Flow Analysis for the Coming Year

Estimated Cash and Cash Equivalents, Beginning of Year (1)	Estimated Net Cash Flow from Operating Activities (2)	Estimated Cash Outflow (Inflow) (3)	Cash Surplus (Deficit) (1)+(2)-(3)	Leverage of Cash Surplus (Deficit)	
				Investment Plans	Financing Plans
311,085	4,043,932	4,311,896	43,121	311,085	4,043,932

IV. Major Capital Expenditure Items

1. Major Capital Expenditure Items and Sources of Capital

2022 Major Capital Expenditure was NT\$2,219,755 thousand, mainly investing in construction and improvements of chicken farms and pig farms, and the rest was invested in construction and improvements of Taichung Plant, Kaohsiung Plant, and Nantou Plant.

Sources of Capital are the Company's operating revenue and bank loan.

2. Expected Benefits : Increase production capacity and quantity, and enhance quality.

V. Investment Policy in the Last Year, Main Causes for Profits or Losses, Improvement Plans and the Investment Plans for the Coming Year

1. Investment Policy and Operating Profits of Subsidiaries:

The Company has been dedicated to the agriculture, livestock, and food core business for a long time and focuses on making long-term and strategic investments to establish a business model to integrate upper, middle, and lower stream of the industry, including feed manufacturing, livestock breeding, electric slaughtering, fresh frozen meat, meat processing food, egg products, etc. Please refer to the notes of the Consolidated Financial Report of the profit of subsidiaries.

2. Investment Plan for the Coming Year: There's no specific investment plan currently.

VI. Analysis of Risk Management

1. Effects of Changes in Interest Rates, Foreign Exchange Rates and Inflation on Corporate Finance, and Future Response Measures:

In 2022, due to the Federal Reserve continuing to raise the interest rate, the interest rates raised and resulted in higher interest expenses. The Company continuously negotiates with banks closely to obtain more favorable Interest Rates.

Impacted by continuous unexpected events such as the slowdown of Globalization caused by U.S.-China conflict, Covid-19 epidemic, and Ukraine-Russia War, the price of international commodity was fluctuated and led to continued accumulation of inflation pressures. However, the rise of prices in Taiwan is relatively moderate that there is no immediate and significant impact on the Company currently. The Company will pay close attention and respond prudently.

Last year, due to the foreign investor oversold Taiwan stocks and remitted big amount of money abroad, the NT dollar depreciated sharply. In order to avoid the risk of the US dollar Exchange Rate, the Company will grasp market trend and timely purchase forward foreign exchange to achieve the purpose of hedging.

2. Policies, Main Causes of Gain or Loss and Future Response Measures with Respect to High-risk, High-leveraged Investments, Lending or Endorsement Guarantees, and Derivatives Transactions:

The Company did not engage in any high-risk, high-leveraged investments, nor engage in any activities of lending or endorsement guarantees. Regarding derivatives transactions, all were conducted in accordance with the related Procedures established by the Company.

3. Future Research & Development Projects and Corresponding Budget

(1) Research the manufacturing technology of clean label products and reduce the use of additives, with an estimated NT\$2 million to be input into R&D.

(2) Implement technologies of Thailand prepared foods and develop various countries' cuisine product series, with an estimated NT\$1 million to be input into R&D.

(3) Introduce cutting-edge automatic equipment from abroad and strengthen the application of manufacturing technology to improve the quality and efficiency of production, with an estimated NT\$1 million to be input into R&D.

4. Effect on the company's financial operations of important policies adopted and changes in the legal environment at home and abroad, and measures to be taken in response: None.

5. Effects of and Response to Changes in Technology (including cyber security risks) and the Industry Relating to Corporate Finance and Sales:

Assessment and Countermeasures of Information Security and Risk

(1) Information Asset Categories which shall be Protected

- A. Information Records: Databases, data files, system planning and design documents, instructions and operating manuals, business processes, contracts, education training materials, system documents, guidelines for internal control and management, and other relevant rules and regulations.
- B. Computer systems: Computer operating systems, application systems, development tools, package software, utilities, etc.
- C. Personnel:
Internal personnel: Application system development and maintenance personnel, application system development and maintenance personnel, system management personnel, information and equipment owners and custodians, information/document production personnel and general users, including official and unofficial personnel.
External personnel: Contractors and business partners.
- D. Infrastructure services: Power services, air conditioning services, network services, telecommunication services.
- E. Physical areas: Employee office, host control room, control area and access control room.
- F. Physical equipment: Hosts, communication equipment, storage media, utilities equipment.

(2) Countermeasures:

- A. The information security policies shall be regularly evaluated in an independent and objective manner in order to follow the latest government's information security management policies, laws, and techniques, to ensure practical operations of information security in compliance with information security policies, and to check the feasibility and effectiveness of those operations.
- B. Information security policy assessments may be carried out by internal audit department, independent and objective senior supervisors, or professional and fair organizations and groups.
- C. Regularly perform security assessments on persons and departments they belong with information system and technical application to ensure they are in compliance with information security policies and regulations.
 - a. Targets shall be included in information security assessment: Information facilities and system providers, information and data owners, users, and managers, system maintenance personnel and other relevant personnel.
 - b. Information system owners shall regularly cooperate with information security assessments and review whether or not relevant personnel comply with information security policies and related regulations.
 - c. Regularly review and assess the safety of the software and hardware to ensure the compliance of safety standards formulated by Authorities. Assessment of operating system shall be included to ensure the accuracy and effectiveness of the safety measures for software and hardware.

-
- d. In case of inadequate professional manpower and experience, professional private organizations, groups, scholars or experts may be commissioned to provide assistance.
 - e. System security assessments shall be carried out manually by well-experienced system engineers with professional knowledge and under the supervision of authorized supervisors or automated software tools may be adopted to perform security checks and generate technical assessment reports that facilitate future interpretation and analysis.
- D. Announcement of Information Security Policies and Regulations
- a. Information security policies, the roles and responsibilities of personnel in information security, and relevant provisions shall be explained in work instructions and relevant operational manuals.
 - b. Information security policies, explanations, and regulations provisioned in work instructions or operational manuals should include general responsibilities for implementing and maintaining information security policies, and special responsibilities for protecting specific information assets, and executing specific security procedures and practices.
 - c. Employees who violate information security policies will be punished in accordance with the provisions.
6. The Impact of Changes in Corporate Image on Corporate Risk Management, and the Company's Response Measures: None.
7. Expected Benefits from, Risks Relating to and Response to Merger and Acquisition Plans: None.
8. Expected Benefits from, Risks Relating to and Response to Factory Expansion Plans: The Company invested NT\$ 1.3 billion to build an AI-automatic feedmill with a drug-free feed production line in Yunlin Technology-based Industrial Park in Douliou City, Yunlin County. The feedmill is expected to produce 240 thousand tons in the first year and to be planned with a yearly capacity of 480 thousand tons. The feedmill is completed and commenced mass production in the second quarter of 2022 and will be a new driving force for operating performance.
9. Risks Relating to and Response to Excessive Concentration of Purchasing Sources and Excessive Customer Concentration: None.
10. Effects of, Risks Relating to and Response to Large Share Transfers or Changes in Shareholdings by Directors, Supervisors, or Shareholders with Shareholdings of over 10%: None.
11. Effects of, Risks Relating to and Response to the Changes in Management Rights: None.
12. Litigation or Non-litigation Matters:
The Company and its directors, CEO, management team, major shareholders with over 10% shareholdings and subsidiaries are not involved in lawsuits, non-lawsuits or administrative lawsuits.
13. Other Major Risks: None.

VII. Other Important Matters: None.

Special Disclosure

I. Summary of Affiliated Companies

1. Consolidated Business Report of Affiliated Companies

(1) Affiliated Companies Overview

A. Affiliates' Organization Chart

B. Basic Information of Affiliates

Unit: NT\$1,000

Entity Name	Date of Incorporation	Address	Paid-in Capital	Main Business Activities
Plenty Type Limited (Cayman Islands)	Aug. 15, 1996	P.O. Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands, British West Indies	470,459	Management of producing and non-producing business investments.
Charoen Pokphand (Taiwan) Corp. Ltd.	Jan. 16, 1970	17F, No.87, Songjiang Rd., Taipei City	27,152	Management of importing and exporting business
Arbor Acres (Taiwan) Co., Ltd.	Mar. 5, 1973	17F, No.87, Songjiang Rd., Taipei City	32,000	Husbandry management of chickens to produce breeder chicken and daily chicken.
Rui Mu Foods Co., Ltd.	Sep. 19, 2016	17F, No.87, Songjiang Rd., Taipei City	300,000	Management of layers and related business
Rui Fu Foods Co., Ltd.	Dec. 21, 2016	17F, No.87, Songjiang Rd., Taipei City	800,000	Management of layers and related business
Sheng Da Foods Co., Ltd.	Dec. 13, 2019	17F, No.87, Songjiang Rd., Taipei City	160,000	Management of eggs and related business.
Chia Tai Lianyungang Co., Ltd.	Jan. 30, 1992	21F., Far East Finance Centre, 16 Harcourt Road, Hong Kong	3,349	Management of producing and non-producing business investments.

C. Presumed Control and Be-controlled Relation Information: NA.

D. Line of business for the inter-companies:

The lines of business for the inter-companies cover feeds manufacture, livestock culture, butchery and food processing, poultry and livestock breeding, import-export trade, restaurants and investments. All inter-companies operate independently and form the whole channel of the vertical integration. Through mutual support in technology, production, marketing and service network, to create the great benefit of this group, keep expanding and offer the best products to consumers to ensure its leadership in Taiwan.
